#### P I L O T A G E   B Y E - L A W S .

THE Swansea Harbour Trustees, by virtue of the powers vested in them by the Swansea Harbour Act, 1854, and the Merchant Shipping Act, 1894, and all other powers them thereunto enabling, do hereby make the following Bye-laws for the government of and affecting the Pilots of the Pilotage District of Swansea, and for fixing the Rates of Pilotage or remuneration to be received by such Pilots, and for granting Pilotage Certificates to Masters and Mates.

1. No person shall be licensed to act as pilot before he is 21 or after he is 35 years of age, and before he has served for six years at sea, of which period two years shall have been in a coasting vessel trading to and from the Port of Swansea, and before he has produced a Board of Trade certificate as to colour-blindness and certificates of good conduct and sobriety, and passed a satisfactory examination before the Pilotage Examination Sub-Committee.
2. The boats which shall be used for the pilotage service shall be those from time to time appointed by the trustees.
3. Each pilot's licence shall remain in force for 12 months from the date on which it was granted, and may be renewed annually by an endorsement under the hand of the clerk of the trustees. Each pilot shall pay for his licence and for each renewal thereof two guineas, which fees shall be paid into the Pilotage Fund of the District of Swansea, and each pilot shall contribute to the said fund a poundage of not less than 1s. in the £ on his earnings.
4. Every pilot shall serve in the boat to which he is from time to time appointed by the harbour-master, and when on board shall submit to the authority and directions of the master of that boat in all respects.
5. Each pilot shall, as soon as possible after he has piloted or assisted any vessel within the Swansea pilotage ground, deliver to the collector of rates at the harbour offices a certificate signed by the master of such vessel showing what services have been rendered, and the amount payable for such services shall be collected by the collector of rates, and if any pilot receives pilotage money he shall immediately deliver an account of and pay the same to the collector.
6. The Pilotage Fund of the District of Swansea shall be dispensed to sick, aged, and infirm or disabled pilots, or their nominees, widows, or representatives, or children, in such manner as the Pilotage Committee shall from time to time determine.
7. Every master of a pilot boat shall be responsible for the proper condition, management, and navigation of his boat, and shall see that such boat shall cruise as prescribed by the Pilotage Committee. The master shall report in writing to the harbour-master all cases of misconduct on the part of any member of the crew of his boat.
8. Every master of a pilot boat shall, when she is on turn for sea duty, have such boat in perfect readiness, and shall muster the crew of the boat and the pilots whose turn it is to proceed to sea in such boat; and when at sea he shall use his utmost exertions to keep her on her station, and shall use all diligence in approaching and boarding vessels requiring pilots or from which pilots are to be discharged. A master shall on no account leave his boat when at sea except in cases of emergency or by the authority of the harbour-master.
9. The pilot boats when on duty shall exhibit:—
  - By day.—A flag at the masthead, such flag to be the regular pilot flag, red and white horizontal. The size of the flag to be 4 feet 6 inches by 3 feet.
  - By night.—A white light at the masthead visible all round the horizon. A flare-up light at short intervals, which shall never exceed 15 minutes.
10. Each pilot shall carry with him a small pilot flag, red and white horizontal, with the number of his licence on it; and when in charge of a vessel shall make the following signals for the purpose of showing he is on board:—
  - By day.—The pilot flag to be hoisted on board the vessel in such a situation as to be best seen.
  - By night.—A light to be hoisted and lowered when a pilot boat is in chase.

## PORT OF SWANSEA—continued.

11. Henceforth every vessel piloted or assisted into or out of Swansea Harbour, or within the limits of the Swansea pilotage ground, shall be charged according to the following rates, namely:—

| REGISTER TONNAGE.         | For Vessels entering the Harbour or brought to an anchor in the Mumbles Roadstead. |  |  |                                    | For Vessels leaving the Harbour. |  |  |
|---------------------------|--|--|--|------------------------------------|----------------------------------|--|--|
|                           | Piloted or Assisted from any Point.  |  |  |                                    | Piloted or Assisted.             |  |  |
|                           | East of Mumbles Head bearing North.  | West of Mumbles Head and East of Pwlldu Point bearing North. | West of Pwlldu Point and East of Worm's Head bearing North or Sker Buoy bearing East South-East. | West of Worm's Head bearing North. | Clear of the Entrance.           | Clear of the Green Grounds or to an anchor in the Mumbles Roadstead. | To the Eastern or Western Limits of the Pilotage Ground. |
|                           | Including landing of the Pilot in each case.                                       |  |  |                                    |                                  |  |  |

| 1200 " " 1300 - -         | 3 10 -   | 4 12 6   | 4 15 -   | 5 10 -                             | 3 10 -                           | 3 10 -   | 9 10 -   |

And 5s. extra for each additional 100 tons.

12. If a vessel bound to Swansea be brought to an anchor in the Mumbles roadstead *en route*, and the pilot be discharged there, and the vessel subsequently enters Swansea Harbour in charge of the same or another pilot, then one-half only of the rates specified in the foregoing table shall be paid to the pilot piloting or assisting the vessel to an anchor, and for the subsequent service the rates specified in the first column of the said table shall be paid.

13. Every pilot required by the master to remain on board a vessel at anchor shall be paid at the rate of 10s. for every day of 24 hours, or part of a day of 24 hours, that he so remains on board.

14. The pilots' duties and responsibilities shall not cease in the case of any vessel entering the harbour until such vessel has been moored in any part of the tidal harbour, or in any half-tide basin, or has entered a lock, or in the case of a vessel to be brought to an anchor in the Mumbles roadstead until brought to an anchor there, and in the case of a vessel which has been otherwise piloted or assisted, and in the case of an outward-bound vessel, until piloted or assisted the required distance.

15. The following shall be deemed to be the limits of the pilotage ground of pilots appointed and licensed by the Swansea Harbour Trustees, viz.:—"North of the line of the Nash Lights, in one," and "East of an imaginary line running North and South of a point 4 miles westward of the Helwick Light Vessel, placed off the Helwick Shoal, near the Worm's Head, in the county of Glamorgan."

16. Pilots' assistants are appointed to assist vessels entering or leaving the harbour, and when so employed shall be paid for each man employed 2s., and for each boat 2s. No pilot's assistant shall ply for hire unless authorised in writing by the harbour-master, who may suspend or dismiss any assistant.

17. If a master of a ship employs, or continues to employ, an unqualified pilot after a qualified pilot has offered to take charge of the ship, or has made a signal for that purpose, he shall pay such qualified pilot double the amount of pilotage which could be demanded for the conduct of the ship.

18. The pilots shall obey the bye-laws and regulations of the trustees affecting Swansea Harbour and Docks, and all orders and directions that may be given them by the harbour-master or dock-master, or their assistants, relative to the docking, berthing, and moving vessels under their (the pilots') charge.

19. No pilot shall, directly or indirectly, except with the consent of the trustees, have or hold any share or interest in any steam-tug company carrying on business at Swansea, or in any steam vessel used regularly or occasionally for towing vessels into or out of Swansea.

20. The harbour-master may, for any cause which he may deem sufficient, suspend any pilot, and in case of so doing shall enter in his report book the cause of suspension, and shall bring the matter before the Pilotage Committee at their next meeting, or at a special meeting to be called for the purpose, and the Committee may continue the suspension until the following general meeting of the trustees, who may further suspend or dismiss any pilot.

21. Any pilot dismissed by the trustees shall forfeit all claim to the Pilotage Fund of the District of Swansea. Provided always that the trustees or the Pilotage Committee may, if they consider any extenuating circumstances exist, grant to any pilot dismissed by the trustees out of the said fund a sum not exceeding one-half of the aggregate amount of his contributions thereto, not calculating interest thereon, such sum to be paid at such time or times and in such manner as the trustees or Committee may determine.

22. All complaints against pilots shall be entered in the "complaint book" kept in the harbour-master's office, within (when possible) 24 hours of the cause of complaint arising, and the complainant shall sign his name to every such complaint.

23. The master or mate of any ship, upon giving due notice and depositing in the hands of the collector of rates the amount of fees hereinafter mentioned, shall be examined by the Pilotage Examination Sub-Committee of the trustees as to his capacity to pilot the ship of which he is master or mate, or any one or more ships belonging to the same owner, within the pilotage jur-

PORT OF SWANSEA—*continued.*

diction of the trustees, and if found competent, a pilotage certificate, under the common seal of the trustees, shall be granted to him, and thereupon he may lawfully pilot the ship or any of the ships specified in that certificate, of which he is acting as master or mate at the time, within the pilotage jurisdiction of the trustees, without incurring any penalties for the non-employment of a qualified pilot.

24. The pilotage certificate so granted shall remain in force for 12 months from the date on which it was granted, and may be renewed annually by an endorsement under the hand of the clerk of the trustees.

25. Every master or mate desirous of being examined shall, before being so examined, deposit in the hands of the collector of rates a fee of two guineas, which shall include the expenses of such examination, and if granted a pilotage certificate, the issue of such certificate, and a fee of two guineas for every renewal thereof, and every master or mate holding a pilotage certificate, whether granted by the trustees or the Board of Trade, shall, in addition to such fees, pay to the collector of rates a sum not exceeding 5 per cent. of the pilotage rates which would have been payable in respect of his ship if he had not held a pilotage certificate, as a contribution to the Swansea Pilotage Fund, and every such master or mate shall make a return of the pilotage services

rendered by him during each period of six months ending June the 30th and December the 31st respectively, and deliver the same to the collector of rates within one calendar month thereafter, and the contributions aforesaid shall be paid to the credit of the Pilotage Fund of the District of Swansea; but no master or mate shall be entitled to participate in any of the benefits of the said fund.

26. The foregoing pilotage bye-laws shall come into operation at the expiration of one month after confirmation thereof, and the bye-laws made by the trustees on the 10th day of November 1856, and amended on subsequent dates, shall be and are hereby from that date revoked.

27. Nothing in the foregoing bye-laws shall apply to vessels bound to or from Port Talbot, so long as they are within the Port Talbot pilotage limits as defined by the Port Talbot Railway and Docks Act, 1899.

The foregoing bye-laws were approved and confirmed by the Queen's most Excellent Majesty in Council, at the Court at Windsor, the 28th day of November 1899.

TALFOURD STRICK,  
Clerk.

## HARBOUR PILOTAGE BYE-LAWS.

THE Swansea Harbour Trustees, by virtue of the powers vested in them by the Swansea Harbour Act, 1854, the Commissioners Clauses Act, 1847, and Harbours Docks and Piers Clauses Act, 1847, do hereby make the following Bye-laws for the regulation of and affecting the Harbour Pilots of Swansea Harbour, and for fixing the Rates or remuneration to be received by such Harbour Pilots.

1. Persons may from time to time be appointed as harbour pilots to move vessels within Swansea Harbour. Each harbour pilot's licence shall remain in force for 12 months from the date on which it was granted, and may be renewed annually by an endorsement under the

hand of the clerk of the trustees. Each harbour pilot shall pay for his licence and for each renewal thereof two guineas, which fees shall be paid to the Harbour Pilots' Fund.

2. Henceforth every harbour pilot employed in moving any vessel within the harbour shall be paid according to the following rates, namely:—

| REGISTER TONNAGE.       | 1.<br>Within<br>Dock<br>or<br>Basin. | 2.<br>From<br>Dock to<br>Basin or<br><i>vice versa</i> . | 3.<br>From the North Dock<br>Lower Basin to the<br>South Dock Basin<br>or <i>vice versa</i> .<br>From either of the<br>said Basins to any part<br>of the New Out or<br>Tidal Harbour below<br>the Midland Railway<br>Bridge or <i>vice versa</i> .<br>From the North Dock<br>Upper Basin to any<br>part of the New Out<br>or River above the<br>Midland Railway<br>Bridge or <i>vice versa</i> . | 4.<br>From the North Dock<br>Lower Basin or South<br>Dock Basin to any<br>part of the New Out<br>or River above the<br>Midland Railway<br>Bridge or <i>vice versa</i> .<br>From the North Dock<br>Upper Basin to any<br>part of the New Out<br>or Tidal Harbour<br>below the Railway<br>Bridge or <i>vice versa</i> . | 5.<br>From the North Dock<br>Lower Basin, the<br>South Dock Basin, or<br>any part of the New<br>Out or Tidal Harbour<br>below the Midland<br>Railway Bridge<br>to the Prince of<br>Wales Dock Basin or<br><i>vice versa</i> . | 6.<br>From any part of<br>the New Out or River<br>above the Midland<br>Railway Bridge<br>to the Prince of<br>Wales Dock Basin<br>or <i>vice versa</i> . |

| 1500 " and upwards      | 6 -                                  | 12 -   | - 17 6   | 1 3 6   | 1 5 -   | 1 11 -  |

NOTE.—Masters may employ either pilots or harbour pilots for the work mentioned in columns numbered 5 and 6 respectively.

3. Each harbour pilot shall, as soon as possible after he has performed the services required of him on any vessel within the harbour, deliver to the collector of rates at the harbour offices a certificate signed by the master of such vessel showing what services have been rendered, and the amount payable for such services shall be collected by the collector of rates, and if any harbour pilot receives money for services rendered, he shall immediately deliver an account of and pay the same to the collector. All money received for harbour pilots

shall be paid to them on the usual pay days, after deducting a commission of 6d. in the £ for expenses of collecting, and once a year, in the month of June, two guineas for renewal of licence.

4. If a master of a ship employs or continues to employ an unlicensed harbour pilot after a licensed harbour pilot has offered to take charge of the ship, he shall pay such licensed harbour pilot double the amount which could be demanded for the conduct of the ship.

## PORT OF SWANSEA—continued.

5. The harbour pilots shall obey the bye-laws and regulations of the trustees affecting Swansea Harbour and Docks, and all orders and directions that may be given to them by the harbour-master or dock-master or their assistants relative to the docking, berthing, and moving vessels under their (the harbour pilots') charge.

6. The harbour-master may, for any cause which he may deem sufficient, suspend any harbour pilot, and in case of so doing shall enter in his report book the cause of suspension, and shall bring the matter before the Pilotage Committee at their next meeting, or at a special meeting to be called for the purpose, and the Committee may further suspend or dismiss any harbour pilot.

7. Any harbour pilot dismissed by the Committee shall forfeit all claim to the Harbour Pilots' Fund; provided always that the trustees or the Pilotage Committee may, if they consider any extenuating circumstances exist, grant to any harbour pilot dismissed by the trustees out of the said fund a sum not exceeding one-half of the aggregate amount of his contributions thereto, not calculating interest thereon, such sum to be

paid at such time or times and in such manner as the trustees or Committee may determine.

8. All complaints against harbour pilots shall be entered in the "complaint book" kept in the Harbour-master's office, within (when possible) 24 hours of the cause of complaint arising, and the complainant shall sign his name to every such complaint.

9. The foregoing harbour pilotage bye-laws shall come into operation at the expiration of one month after confirmation thereof, and the bye-laws made by the trustees on the 10th day of November 1856, and amended on subsequent dates, shall be and are hereby from that date revoked.

TALFOURD STRICK,  
Clerk.

The Board of Trade hereby sanction the above bye-laws, numbered 1 to 9. By order of the Board of Trade, this 6th day of February 1900.

T. H. W. PELHAM,  
Assistant Secretary.

## PORTS OF THE TYNE.

*Pilotage is Free. Limits of District.—See p. 60 of Parl. Paper, No. 154 of 1889.*

### BYE-LAWS and RATES of PILOTAGE.

[At the Court at Osborne House, Isle of Wight, the 2nd day of February 1899.

Present :—The Queen's most Excellent Majesty in Council.

WHEREAS in pursuance of the 333rd section of the Merchant Shipping Act, 1854, the Tyne Pilotage Commissioners, being the pilotage authority for the River Tyne, made and submitted for the consent of Her Majesty certain bye-laws, which were approved by an Order in Council dated the 6th day of February 1892 :

And whereas by the 582nd and 583rd sections of the Merchant Shipping Act, 1894, it is enacted that a pilotage authority may, by bye-law made under Part X. of that Act, do all or any of the things specified in section 582 ; but that a bye-law so made shall not take effect until it is submitted to Her Majesty in Council and confirmed by Order in Council :

And whereas the said Pilotage Commissioners have made and submitted for the consent of Her Majesty certain new bye-laws, in substitution for the bye-laws approved by the said Order in Council of the 6th day of

February 1892, which said new bye-laws are set forth in the schedule hereto annexed :

And whereas it has been made to appear to Her Majesty that the proposed new bye-laws are proper and reasonable :

And whereas the provisions of section 1 of the Rules Publication Act, 1893, have been complied with :

Now, therefore, Her Majesty, by virtue of the powers vested in Her by the Merchant Shipping Act, 1894, is pleased, by and with the advice of Her Privy Council, to confirm, and doth hereby confirm, the bye-laws set forth in the schedule hereto annexed, in substitution, from and after the date of this Order, for the bye-laws approved by the Order in Council of the 6th day of February 1892.

A. W. Fitaroy.

#### SCHEDULE TO WHICH THE FOREGOING ORDER REFERS.

BYE-LAWS made by the Tyne Pilotage Commissioners for the regulation and government of the Pilots of the Tyne, and for other purposes, pursuant to the powers vested in the said Commissioners under the Merchant Shipping Act, 1894, and the Tyne Pilotage Order Confirmation Act, 1865.

1. From and after the coming in force of these bye-laws, all and every the bye-laws heretofore in force with respect to the pilots and pilotage of the Tyne shall be, and the same are hereby, rescinded, except as to anything done thereunder, or any right, power, duty, obligation, penalty, or liability acquired or incurred thereunder. In lieu thereof the Commissioners do hereby make and ordain the following bye-laws for the government of existing and future pilots, which shall come in force on and from the date of the Order in Council approving these bye-laws.

##### *Pilot Superintendent.*

2. The duties of the pilot superintendent shall be as follows :—

(a.) To exercise supervision and control, under the Commissioners, over all the pilots and pilots' assistants, so as to see that the pilot Acts and these bye-laws, and all resolutions and orders to which the pilots are required to conform, are duly observed.

(b.) To obtain from the pilots reports of all occurrences affecting the service on which the Commissioners or the superintendent may require information.

(c.) To prepare and post up for the information of the pilots orders received for ships and steamers requiring pilots in conspicuous places on the several premises of the Commissioners.

(d.) To hear and determine such differences as may arise between the pilots and pilots' assistants.

(e.) To prevent the employment of unlicensed pilots.

(f.) To enquire into complaints made against pilots by masters and owners of vessels and others interested, and into circumstances attending cases of collision or loss, when vessels have been under charge of a pilot.

(g.) To take soundings of the river and channel from time to time, and especially to draw the earliest attention to any alterations in the conditions and depth thereof.

(g.) To keep a daily journal, and to enter therein daily the direction and nature of the wind, the height of the barometer and swell at the entrance to the harbour.

(h.) To assist in obtaining the daily returns from the pilots of the vessels piloted, docked, undocked, moved, or transported by them.

(i.) To see that pilot cibles and other boats regularly used in the pilot service are duly licensed and properly numbered in figures of not less than 15 inches in length, commencing at No. 1, and continuing in numerical order.

(j.) To keep a register and character book in which shall be recorded the name and description of each pilot's assistant, the date of his entering the service and his character, and any particulars of conduct during the service.

(k.) To introduce steady, sober, and qualified young men as they stand in the register book for examination for licences.

(l.) To assist in the examination of persons applying for licences.

(m.) To carry out all orders and regulations of the Commissioners and the nautical committee, which may be from time to time issued relative to the piloting of vessels, and the keeping of a sufficient number of pilots always on duty for sea or river service, or relative to other matters within the scope of his duties.

(n.) To report to the Commissioners and to the nautical committee from time to time, in a book to be kept for that purpose, on all the above subjects, and also on all cases of misconduct or breach of the bye-laws that may come to his knowledge on the part of any of the pilots, and to record the sentence or punishment passed or imposed for the same.

(o.) All instances of neglect of duty shall be brought before the Commissioners, and the pilot superintendent shall not compromise any offence committed by any pilot.

## PORTS OF THE TYNE—continued.

(p.) The time of the pilot superintendent shall be wholly devoted to the service of the Commissioners.

*Pilots.*

3. There shall continue to be one body of licensed pilots who, having qualified, or upon qualifying as hereinafter mentioned, shall be licensed, and during the continuance of their licences shall be empowered to pilot vessels to and from and throughout any part of the Tyne pilotage district.

4. All cobbles and other boats now or hereafter regularly employed in the pilot service in the river or at sea must, pursuant to the 611th section of the Merchant Shipping Act, 1894, before being so employed, be approved and licensed by the Commissioners, besides being numbered as directed by sub-section (f) of the second of the foregoing bye-laws, and must carry the lights required by law.

5. Every present or future pilot owning or having control over any such coble or other boat is accordingly hereby required to take out a licence from the pilot superintendent, which will in approved cases be granted on payment of a fee of 2s. 6d. for each such licence. Every licence will remain in force during the pleasure of the Commissioners, and is subject to payment of an annual renewal fee of 2s. 6d., due and payable not later than on the 1st day of March in each year.

6. Licensed cobbles may be used for sea and river service, but other licensed boats of smaller size are only to be used for river service, i.e., not seaward of an imaginary line drawn from the end of the south pier to the end of the north pier.

7. All pilots are prohibited from using in the pilotage service at sea or in port, or when boarding vessels, any coble boat, steam tug, or other vessel of any description not licensed as aforesaid, excepting only the pilot steamer or steamers for the time being provided by the Commissioners, and excepting in such special and individual cases of emergency as shall be afterwards allowed by the Commissioners.

8. Every pilot using the pilot steamer shall, subject to the shipmaster's general right of selection, take his turn whether the vessel requiring a pilot be large or small, and if all the pilots (excepting those only qualified to pilot vessels not exceeding 500 tons register) obtain vessels, the pilot steamer shall return for a relay of pilots, and as soon as a sufficient number are on board, the pilot steamer shall proceed to sea immediately.

9. When two or more licensed pilot boats are making for the same vessel, the pilot in the first or leading boat shall be entitled to board such vessel, and the other pilots in the vicinity shall not interfere in any way in the act of boarding, but shall keep off at a distance of at least one-quarter of a mile.

10. No pilot boat shall be allowed to be towed outwards by any steamer, steam tug, or vessel towed by steam power beyond an imaginary line drawn from the south to the north pier heads. This rule is not to prevent any pilot towing homewards; and if whilst so towing he shall fall in with any vessel requiring a pilot, he shall be at liberty to board and take charge of such vessel.

11. Every pilot shall use his utmost care and diligence to conduct the ships and vessels under his charge without causing or contributing to damage or injury thereto or to other vessels, craft, quays, dock walls, piers, bridges, or other erections; and shall behave himself with strict sobriety and due respect towards the owners, masters, and officers of the ships and vessels under his charge, and shall not leave his vessel until she is safely and permanently moored; and shall forthwith, but not exceeding in any case within forty-eight hours after his leaving each vessel, report to the pilot superintendent all accidents which may have happened to such vessel while under his direction inwards or outwards. He shall always have with him when on duty a copy of these bye-laws, his licence, and a pilot flag as described in the fifteenth of these bye-laws. On taking charge of a vessel he shall, if required, exhibit his licence to the officer in command. In the case of vessels outward bound, he shall repair on board at least two hours before

high water, or when required by the master, to ascertain if the vessel of which he is about to take charge is ready for sea, or to moor in the river; and, except with the consent of the master, he shall not leave a vessel piloted seawards until she is fairly clear of the entrance to the harbour. He shall obey and execute all orders received from the Commissioners or the nautical committee, the secretary, or the pilot superintendent. No pilot shall be absent from duty without the permission of the pilot superintendent, and every pilot found guilty of drunkenness whilst on duty shall be liable to have his licence cancelled and withdrawn.

12. All pilots going to sea in search of vessels shall first visit the pilot office to ascertain what orders there are for vessels expected inwards, and shall pay due regard thereto. Pilots cruising within or without the Tyne pilotage district must take charge of vessels requiring pilots without preferring one vessel over another.

13. Pilots must first obtain leave from the pilot superintendent before engaging to pilot vessels from other British or from foreign ports into the river Tyne, and failing such leave, any pilot at sea offering his services is to be entitled to the inward pilotage of any such vessel.

14. Every pilot engaged to pilot a vessel lying in the river, and bound into the Tyne, Northumberland, or Albert Edward Docks, shall be on board at least one hour before high water to make ready for going into dock, and every pilot in charge of a vessel in any part of the district shall be held responsible until the pilotage is completed.

15. Every pilot shall provide himself with a red and white flag three feet long by two feet broad, and of two colours, the upper horizontal half white, and the lower horizontal half red. On taking charge as pilot of any vessel, he shall cause his flag to be hoisted on board such vessel at the gaff-end under the ensign, or wherever it may be most conspicuously seen (except on the foremast), and he shall keep his flag continually flying whilst in charge of any vessel. This bye-law shall apply to every vessel outward or inward bound, at sea or in port, under way or at anchor, and under all circumstances so long as any vessel is in charge of a pilot.

16. All pilots and pilots' assistants whilst using or being at or near any of the offices, look-out houses, or other premises used or occupied for the purposes of the pilot service, shall conduct themselves with strict sobriety and be always of good behaviour; and shall on no account use insolent, improper, or quarrelsome language to any Commissioner or any member of the pilots' committee or any official of the Commissioners, either on any of the aforesaid premises or elsewhere, and if on the said premises, the offenders may be forthwith ejected therefrom without prejudice to other penalties under any of these bye-laws.

17. All pilots shall obey the bye-laws for the time being, and all orders, resolutions, and directions of the Commissioners, or of any committee of the Commissioners; and also all proper orders and directions that may be given to them by the pilot superintendent, or by the dock and harbour masters, relative to the docking, undocking, towing, transporting, removing, or berthing of vessels under their charge.

*Collection and Application of Pilotage.*

18. Every pilot shall make daily returns on forms to be prescribed by and furnished at an office of the Commissioners of the vessels piloted, docked, undocked, moved, or in any way transported or attended by him, showing the amount of earnings of every description earned each day by every pilot; such returns shall be made by each pilot to the secretary at the principal office of the Commissioners, and in default of his so doing or paying over such pilotage dues as by the nineteenth of these bye-laws he is authorised to receive, he shall in each case be subject to a deduction from his share of pilotage of a sum not exceeding 10s., and be liable to have his licence withdrawn, or suspended.

19. Every pilot is prohibited from receiving from any owner, consignee, agent, or master any pilotage dues or earnings of any description, excepting only when there

PORTS OF THE TYNE—*continued.*

is no owner, consignee, or agent of the vessel piloted resident or carrying on business in any of the ports within the Tyne pilotage district, or in Sunderland or Blyth. In any such case the pilot receiving the dues or earnings shall forthwith pay over such dues without deduction to the proper officer of the Commissioners at their principal office, or at such place and time as the Commissioners may from time to time direct.

20. Every pilot earning any pilotage dues or earnings of any description shall, on completion of his services, tender for signature to the master or other person in charge of the vessel a form of order on the owner, consignee, or agent at one of the Tyne ports, or at Sunderland or Blyth, for payment of the pilotage dues earned, to be in such order specified, and shall forthwith on receipt of such order deliver the same to an official of the Commissioners at the pilot office, Green's Place, South Shields, or at such office or place as the Commissioners shall from time to time prescribe. In no case shall pilots deliver their pilotage orders at the pilot office later than the day after vessels have been taken to sea, and every pilot failing to do so without sufficient reason shall be reported by the secretary to the Commissioners, and in each such instance the pilotage shall be retained until the Commissioners have given their decision thereon.

21. All owners, consignees, and agents at any of the Tyne ports, or at Sunderland or Blyth, of vessels piloted in the Tyne pilotage district are hereby required to pay all pilotage dues of every description to the Commissioners' collector for the time being, and not to any pilot. This bye-law is not to be construed to abridge or affect the legal liability of owners, masters, consignees, or agents to pay pilotage dues, and is intended to provide for payment of pilotage dues to the Commissioners' collector, instead of to the pilots as heretofore.

22. From the gross amount of pilotage dues and earnings received by the Commissioners there shall from time to time be deducted (1) the contributions of pilots under the 27th bye-law; (2) the cost of collection of the earnings of all the pilots; and (3) the expenses (but not exceeding 3½ per cent. on the gross amount of pilotage dues) of and incident to steam pilot cutters, cobs, or other vessels, and of pilots' assistants, as mentioned in the 23rd and 24th bye-laws. Such deductions, or any of them, may in the first place be upon estimate, subject to subsequent quarterly or other adjustment, and it shall not be open to any pilot to recover from the Commissioners any deduction made from the gross pilotage earnings by virtue of this or any other bye-law now or hereafter ordained by the Commissioners.

*Pilot Steamers.*

23. The Commissioners may from time to time purchase or hire, on such terms and for such periods as the Commissioners shall think fit, one or more steam cutters or other vessels, of such size, burthen, equipment, and at such cost as the Commissioners shall from time to time think fit, for the use of the pilots, and to enable them to keep the sea in every state of weather, and also for river service, with all necessary cobs and other boats, gear, machinery, and appliances, and may keep any and every such cutter or other vessel insured and indemnified against all insurable risks, and may repair, maintain, and navigate every such cutter or other vessel, and may employ and pay, and discharge, remove, and substitute masters, crews, and engineers, and may, at the discretion of the Commissioners, and for any of the purposes by these bye-laws authorised, enter into all necessary charter-parties and other contracts.

24. The pilots shall bear by deduction from time to time from the pilotage earnings, as mentioned in the 22nd bye-law (but not exceeding 3½ per cent. on the gross amount of pilotage earnings as from time to time collected by the Commissioners), the cost of the purchase, hire, maintenance, repair, insurance, navigation, and management of every steam cutter or other vessel, and of her boats, gear, machinery, and appliances, and of all cobs for river services, so to be hired or chartered by

the Commissioners as aforesaid, and of all pilots' assistants employed by the Commissioners in the pilot service.

25. The net amount of all pilotage earnings of every description received by the Commissioners shall, after the deductions mentioned or referred to in the 22nd bye-law, be divided between the pilots earning such pilotage earnings in proportion to the amount of pilotage earned by each pilot. The division of such net pilotage shall take place as nearly as may be monthly, or more frequently at the discretion of the Commissioners, and the decision of the Commissioners as to the share of any pilot on any such division shall be conclusive.

26. No action shall be brought or claim set up against the Commissioners by any pilot in respect of the collection, apportionment, or division by the Commissioners from time to time of the pilotage earnings.

*Contributions to Pilots' Funds.*

27. A deduction of not exceeding, in the discretion of the Commissioners, 5l. per centum shall be made from the gross amount of pilotage earnings of every description earned by the pilots. The amount thus from time to time deducted shall be placed to the credit of the amalgamated sea and river pilots' fund, hereinafter referred to as "the General Pilotage Fund," and shall be applied in the same manner as the other moneys belonging to this fund, being nevertheless primarily applicable to the cost of the pilotage service.

28. Every master and every mate in the merchant service obtaining a pilotage certificate, enabling him to pilot his vessel within any portion of the Tyne pilotage district pursuant to Part X. of the Merchant Shipping Act, 1894, shall, for each occasion on which he navigates his vessel within the district or part of the district to which his certificate applies, pay to the Commissioners, as hereinafter mentioned, a sum not exceeding in the discretion of the Commissioners 5 per centum of the gross amount of pilotage dues payable in respect of the vessel to a qualified Tyne pilot on each such occasion. Every such payment shall be placed to the credit of the General Pilotage Fund. Provided always, that such payments shall not entitle any such master or mate, nor his widow or children, to any pension, superannuation, or other benefit. Provided also, that such payment shall not be made in respect of the same vessel, either for inward or for outward pilotage, more than once in a period of ten consecutive days.

29. Every such master and mate certificated as aforesaid shall, within one calendar month after each half-year ending on the 30th day of June and the 31st day of December respectively, make a return in writing of the occasions during the half-year immediately previous on which he shall have navigated vessels within the Tyne pilotage district, with the names and all needful particulars of the vessels, and shall within the same periods respectively from time to time pay to the secretary at the principal office of the Commissioners the amounts due from him under the foregoing 28th bye-law.

*Pilots' Assistants.*

30. Candidates for the pilot service must not be under 14 years of age or over 18 years of age. They will be required to prove that they are able to read and write correctly, and that they have a competent knowledge of arithmetic, and must possess such other requirements as the Commissioners shall from time to time prescribe.

31. All approved candidates for the pilot service shall act as assistants therein for seven years under the direction of the Commissioners before attaining the age of 33 years, the first five of which are to be served in the Tyne pilotage district, and four of these first five years to be served in a sea-going pilot coble. No assistant shall leave the pilot service in any case without permission from the pilot superintendent, and, on application for examination for a pilot's licence, proof shall be required of the satisfactory completion of the seven years' term of service. Each such assistant shall serve six months of the above term after the first five years as seaman on board a sailing ship or ships, and shall serve one year and six months of the above term on board of a steam-

## PORTS OF THE TYNE—continued.

ship or steam-ships, but such two years' service in sailing and steam-ships shall be made when and as may be approved of by the Commissioners. During service in sailing and steam-ships every assistant shall use his utmost efforts to become familiar with and experienced in the steering, handling, and working of such vessels. The service in sea-going cobles is to be verified by the certificates in writing of the pilots employing each assistant, which they are hereby required to supply on each occasion of the assistant leaving the service of any pilot.

32. Satisfactory testimonials, including a surgeon's certificate that a candidate for the pilot service is of sound health, shall in every case be submitted to the Commissioners before a licence is granted. The Commissioners or the nautical committee shall have power, as and when they shall think fit, to hold investigations into the conduct of any pilot's assistant, and to summon and require his attendance on any such investigation, and to dismiss any pilot's assistant from the pilot service at any time upon any misconduct on the part of the assistant deserving, in the judgment of the Commissioners or of the nautical committee, such punishment. The name of every candidate shall be entered in the pilot superintendent's register and character book on his first entering the service, and his character shall be therein yearly entered up by the pilot superintendent, and, unless otherwise ordered by the Commissioners, vacancies in the pilot service shall be filled up according to priority of date of entry as aforesaid.

33. Every assistant who shall have served the above term of seven years and shall apply for a pilot's licence shall, if eligible in other respects, undergo an examination under the direction of the Commissioners for the purpose of ascertaining his skill, knowledge, and experience in relation to the navigating, piloting, and conducting of steam and sailing vessels, including knowledge of the rule of the road at sea, and his freedom from colour-blindness. He must be able to give a correct and seamanlike description of the river, harbour, docks, and piers, and must know the course and distance between any two places within the Tyne pilotage district. He must be able to navigate any vessel requiring a pilot into, from, and throughout any part of the Tyne pilotage district, and for this purpose must possess a thorough knowledge of the chart and mariner's compass. He must be familiar with the rise and set of the tides; the depth and character of the soundings; the best anchorages; the sand-banks, rocks, shoals, and other dangers; the land-marks, buoys, and lights, and the marks and depths of the lead line; he must understand the complete management of a vessel, and how to bring her to anchor, and to keep her clear of her anchor in a tideway; how to moor, unmoor, and get underway; and how to handle a vessel under any circumstances.

*Licences and Renewals.*

34. Every pilot licence when first granted, and for a period of not less than one year thereafter, shall apply only to and authorise the navigating, piloting, and conducting of vessels not exceeding 500 tons net register. After the expiration of one year, every pilot who continues to hold such a licence may, in the discretion of the Commissioners, be required to pass a further examination on such heads and particulars as the Commissioners shall from time to time by resolution prescribe, and on his passing such further examination, if so required, he shall be eligible to conduct vessels of any tonnage. Provided always, that the Commissioners may from time to time, in the case of either young pilots or old or infirm pilots, or in other special cases, restrict the form and operation of a pilot's licence to such size of vessels, and for such period, and on such conditions, as the Commissioners shall prescribe.

35. Every pilot hereafter licensed shall, on receiving his licence to pilot vessels not exceeding 500 tons, pay to the Commissioners a fee of 2*l.*, and on receiving a licence to pilot vessels of any tonnage, shall pay a further fee of 2*l.*, and for the annual renewal of his

licence 1*l.*, the latter due on the 1st day of July in each year, and payable within one calendar month thereafter; and for the renewal of any licence in place of one lost, 10*s.* Every pilot, being a pensioner on the general pilotage fund, shall be liable to pay the annual renewal fee during each year that he earns pilotage earnings amounting to 100*l.* or upwards. Pilots being pensioners earning less in any year shall be exempt for that year.

36. Every master and every mate in the merchant service obtaining from the Commissioners a pilotage certificate pursuant to Part X. of the Merchant Shipping Act, 1894, shall, on receiving his licence, pay to the Commissioners a fee of 2*l.*, and for the annual renewal of his licence, 10*s.*; and for the renewal of any licence in place of one lost, 10*s.*

37. In addition to persons qualifying for the pilot service, as prescribed by the foregoing bye-laws, the Commissioners shall have power to grant licences to such masters in the merchant service holding certificates of competency granted by the Board of Trade under the Merchant Shipping Acts as the Commissioners shall select as pilots, subject to each person before being licensed under this bye-law serving for a period of 12 months as an assistant in the pilot service under the direction of the Commissioners, and passing the examination prescribed by the 33rd bye-law, and a further examination, if required, under the 34th bye-law; but assistants in the pilot service having duly qualified themselves for licences shall be preferred over masters applying for licences under this bye-law.

*Pilots' Committee.*

38. There shall be a committee of pilots appointed by the Commissioners for examining in the presence of the pilot superintendent all applicants for licences, and to hear and settle disputes between pilots themselves, or between pilots and assistants, or between assistants, and the pilot superintendent shall, if requested by any of the parties interested, refer the case to the Commissioners for their decision, which shall be final and binding upon the parties. The committee shall consist of such number as the Commissioners shall from time to time appoint. For the present and until the Commissioners shall otherwise appoint, the committee shall consist of 12 members, with the addition of the two Commissioners elected by the pilots, five of whom shall form a quorum. The three members of the committee who have longest acted as such shall retire at the end of each year, namely, on the date of the annual election of such two Commissioners, but shall be eligible for re-election, and three members shall be elected out of the body of the pilots by the pilots themselves at a meeting convened for the purpose held after but on the same day as the said annual election, and the members then elected or re-elected shall, if approved, be appointed by the Commissioners to act on the committee for the ensuing year. Each member of the committee shall hold office during the pleasure of the Commissioners, and in case of the death, resignation, or removal of any member of the committee, the vacancy shall be filled up by the Commissioners. Any other of the Commissioners may be present at any meeting of the committee.

*Rates and Conditions of Pilotage.*

39. For the purposes of the following tariff the river Tyne is divided into four sections, viz. :—

1. From sea to and bounded by an imaginary line from Jarrow Quay Corner to the western boundary of the Northumberland Dock.
2. From the last-mentioned imaginary line to and bounded by an imaginary line drawn from Bill Point due south-east true to the South Shore.
3. From the last-mentioned imaginary line up to and bounded by the east side of Newcastle Swing Bridge.
4. From the east side of Newcastle Swing Bridge westwards so as to include the remaining navigable portion of the river.

## PORTS OF THE TYNE—continued.

40. The following pilotage rates shall be paid for every foot of water which any ship or vessel shall draw, viz. :—

|  | From<br>1st April<br>to 30th<br>September,<br>both<br>inclusive. | From<br>1st October<br>to 31st<br>March,<br>both<br>inclusive. |
|--|--|--|
|  | Per Foot.<br>s. d.   | Per Foot.<br>s. d.   |
| Sea to section 1 or the reverse            | 1 3  | 1 6  |
| Sea to section 2 or the reverse            | 2 -  | 2 8  |
| Sea to section 3 or the reverse            | 2 6  | 2 9  |
| Sea to section 4 or the reverse            | 3 -  | 3 8  |
| From section 1 to section 2 or the reverse | 1 -  | 1 -  |
| From section 1 to section 3 or the reverse | 1 6  | 1 6  |
| From section 1 to section 4 or the reverse | 2 -  | 2 -  |
| From section 2 to section 3 or the reverse | 1 -  | 1 -  |
| From section 2 to section 4 or the reverse | 1 6  | 1 6  |
| From section 3 to section 4 or the reverse | 1 -  | 1 -  |

41. The above rates shall apply to cases where vessels are piloted from any part of one section into any part of another section, and any part of a foot not being greater than half a foot will be charged as half a foot, and if more than half a foot will be charged as a foot.

42. Vessels exceeding 500 tons net register shall also pay one farthing per ton on the excess of such tonnage above 500 tons for pilotage from sea to any part of section 1 and the reverse, and one farthing per ton extra for pilotage from section 1 to any part of the river west of section 1 and the reverse, but in no case shall this extra tonnage rate be paid more than once inwards and once outwards on each occasion of a vessel entering and leaving the port. The pilot first in charge of a vessel inward or outward bound shall be entitled to the benefit of this bye-law, although such vessel does not on the first occasion of pilotage reach her final destination inwards or proceed to sea.

43. In the cases of vessels bound from or to sea, and unable from any cause to reach their destinations or proceed to sea the same tide, pilots must, if required, attend the following tide to dock or berth such vessels or take them to sea, as the case may require, without any additional remuneration. Vessels requiring pilots, and bound from any part of the river, and which have proceeded direct to sea, must pay pilotage to sea.

44. When any vessel at sea, inward bound to the river Tyne, shall arrive within the limits of the pilotage district of the Tyne without a pilot of the Tyne on board, the pilot who first offers his services thereafter shall, although such services be refused by the master or other person having the charge and control of the vessel, be entitled to receive one-half of the pilotage dues for the pilotage inwards of such vessel, in case the master or other person having the charge or control of such vessel shall after such refusal employ any other pilot to pilot such vessel inwards into the Tyne. Such inward pilotage shall be so divided, notwithstanding that the pilot actually employed was not informed that a pilot had previously offered his services as aforesaid. Provided that no pilot shall be entitled to such share of the inward pilotage of more than one inward-bound vessel refusing his services within 12 hours from the first offer and refusal.

45. A pilot engaged in general terms at sea who pilots a vessel into the harbour, but is there superseded by another pilot, shall be entitled, to receive, in addition to the pilotage from sea into the harbour, half of the further pilotage to her destination.

46. When a vessel at sea bound into the Tyne shows one or more authorised signals for a pilot and does not employ a pilot responding thereto, the inward pilotage of such vessel into Shields harbour shall be payable to such pilot.

*Docking and Transporting.*

47. The rates for docking, undocking, transporting, shifting, and moving within the port not covered by the foregoing rates of pilotage shall be as follows, viz. :—

|  | s. d. |
|--|-------|
| Vessels not exceeding 200 tons net register  | 5 -   |
| Vessels not exceeding 400 tons net register  | 7 6   |
| Vessels not exceeding 600 tons net register  | 10 -  |
| Vessels not exceeding 800 tons net register  | 12 6  |
| Vessels not exceeding 1,000 tons net register  | 15 -  |
| Vessels exceeding 1,000 tons, for every 100 tons or part of 100 tons above 1,000 tons, a further charge of | 1 -   |

In the case of vessels exceeding 400 tons net register, two-thirds only of the above rates to be charged for moving vessels from tier to tier, or from tier to any dry dock within the distance of 300 yards.

For a pilot's attendance in harbour when required on any vessel, when not ultimately engaged to pilot such vessel, per day or part of a day, 7s. 6d.

*Launches.*

The rates for attending at the launch of any vessel in the river Tyne, and conducting her to her moorings in dock or elsewhere within the port shall be as follows, viz. :—

|  | s. d. |
|--|-------|
| Vessels not exceeding 400 tons net register  | 20 -  |
| Vessels not exceeding 600 tons net register  | 25 -  |
| Vessels not exceeding 800 tons net register  | 30 -  |
| Vessels not exceeding 1,000 tons net register  | 32 6  |
| Vessels exceeding 1,000 tons, for every 100 tons or part of 100 tons above 1,000 tons, a further charge of | 1 -   |

For a pilot continuing in charge on request whilst a steamer's compasses are being adjusted, 10s. extra for such service.

*Complaints: how to be made.*

48. All complaints of offences shall be made in writing signed by the party aggrieved and delivered to the secretary of the Commissioners or left at the head office, as soon as practicable, and the secretary shall summon all such persons as the Commissioners or any committee may desire to examine to attend any meeting of the Commissioners or committee.

*Pilotage Funds.*

49. Whereas since the 1st day of October 1880 the existing sea and river pilots' funds have been amalgamated: and whereas it is possible that certain river pilots may have been injuriously affected by such amalgamation: it is therefore hereby provided that each river pilot pensioned on the 1st day of October 1880 shall, in lieu of the pension then receivable by him, receive a pension of 30l. per annum during his life. Each river pilot who shall have attained the age of 45 years on the said 1st day of October 1880 shall thereupon, and until he shall attain the age of 60 years, be entitled to a pension of 18l. per annum, and upon his attaining the age of 60 years he shall be entitled, in lieu of the said last-mentioned pension, to receive a pension of 30l. per annum during his life. Provided, nevertheless, that the aforesaid pensions to river pilots living on the 1st day of October 1880 shall not prevent them continuing to act as river pilots in the same manner as they did previous to such date.

50. Other pensioners on the sea and river pilots' funds on the 1st day of October 1880 shall continue to receive pensions and allowances upon the same conditions as heretofore.

## PORTS OF THE TYNE—continued.

51. Sea and river pilots licensed prior to the said 1st day of October 1880 shall be entitled to pensions and allowances upon the conditions in force on and before that date; provided also, that such last-mentioned pensions and allowances may be by the Commissioners from time to time varied, and if necessary reduced, if in the opinion of the Commissioners the funds, after payment of expenses, are insufficient to pay and provide for the pensions and allowances charged thereon.

52. Subject to the operation of the preceding bye-laws 49, 50, and 51, the amalgamated sea and river pilots' funds, hereinafter called "the General Pilotage Fund," and all accretions thereto, shall, after providing for all payments and expenses incurred by the Commissioners for the purposes of the pilotage service, be applied by the Commissioners for the relief and support of the widows and children of pilots licensed after the said 1st day of October 1880, and of such last-mentioned pilots when old and decayed on such terms and conditions, and in such amounts, as the Commissioners shall from time to time direct.

53. The Commissioners may also from time to time, in their discretion, out of the general pilotage fund make grants of money towards the repair and replacement of licensed cibles and other boats regularly employed in the pilot service, and damaged or lost without fault on the part of the pilot owning such cible or boat.

54. The Commissioners may also out of the general pilotage fund pay or contribute towards the funeral expenses of any pilot in such special and individual cases as the Commissioners shall in their discretion think fit.

55. No pension shall be assigned or assignable, and every pension shall be payable only to and against the receipt of the pensioner entitled thereto, and no attempt by any pensioner to anticipate, assign, mortgage, or otherwise deal with any pension shall be recognised or acted on.

56. For the purposes of the separate accounts to be returned to the Board of Trade pursuant to section 585 of the Merchant Shipping Act, 1894, the income from funds from time to time invested at interest as part of the general pilotage fund shall be primarily applicable to payment of pensions, superannuations, and benefits pursuant to foregoing bye-laws, and shall be accordingly annually transferred from the general pilotage fund to a separate account, to be intitled "Receipts and Expenditure in respect of Pensions, Superannuations, and other Benefits," together with other items of receipts and expenditure appearing in the general pilotage fund applicable to pensions, superannuations, and benefits, and together with such further amount to be annually transferred from the general pilotage fund applicable to

pensions, superannuations, and other benefits as shall, subject to working expenses, from time to time be available and required to balance the account of receipts and expenditure in respect of pensions, superannuations, and other benefits. Save as aforesaid, the general pilotage fund shall continue to be administered as heretofore.

57. All funds now in or hereafter coming into the possession of the Commissioners in respect of the Tyne pilotage district and available for investment, including the amalgamated sea and river pilots' fund, may be and remain, at the discretion of the Commissioners, invested, and may be from time to time invested and re-invested upon any of the following securities, namely:—

(1.) Upon loan to the Tyne Improvement Commissioners upon any of the securities on which these Commissioners are from time to time authorised by law to borrow money.

(2.) In any post office savings bank.

(3.) In the public funds.

(4.) Upon real securities of freehold or copyhold tenure in England or Wales.

(5.) Upon the debentures or debenture stock or the preference stock or preferred ordinary stock of any English, Scotch, or Welsh railway company.

(6.) Upon the securities offered by any municipal corporation, body of commissioners, harbour authority, or other corporation aggregate in England authorised by law to borrow money, including any debenture or preference stock of any gas or water company incorporated by Act of Parliament or by any Provisional Order confirmed by Parliament.

(7.) In the purchase of real property situate in England.

(8.) In addition to the foregoing, upon any of the securities upon which a trustee is authorised to invest trust funds by "The Trustee Act, 1893," or by any amendment thereof, or by any other statutory authority in force for the time being applicable to trustees and trust funds.

*Penalties for Breach of Bye-laws.*

58. Every pilot or assistant offending against or contravening any of the preceding bye-laws, or any bye-law hereafter ordained by the Commissioners, shall for every such offence forfeit and pay a penalty not exceeding 5*l.*, and in addition to this penalty, any pilot so offending or acting contrary to any resolution or order of the Commissioners, or of any committee of the Commissioners, or of any order of any pilot superintendent, is and is hereby made liable to have his licence restricted, recalled, or suspended by the Commissioners.

We have examined the accounts for the investments of the Accumulated Fund, and find the same to be in order. We have also counted the cash in the hands of the clerk, and received a certificate from the bankers of the amount to the credit of the Commissioners on their Banking Account, and we certify the above accounts to be correct.

11th, 20 February 1900.

Chas. C. Hart, Clerk to the Commissioners of Humber Pilotage.

J. G. Curdall & Burkinshaw, Chartered Accountants.

| Pilot master's fee - - - -                  | -                | - - -               | -        | - - -               | -                | - - -              | -      | 19 11 9             |
| TOTAL - - - -                               | 234              | 216 5 4             | 16       | 71 12 9             | 19               | 63 6 8             | 269    | 370 16 6            |

*Note.*—Only one charge is made at this port for both inward and outward pilotage, and this return includes outward pilotage for the year. A steam tug belonging to the trustees is employed in the pilotage service to tow vessels when required. An allowance from the full dues is made in the case of steamers, reducing the pilotage to 3*d.* per ton.

|---------------------------------------|-----|---------|-----|----------|---|-------|---|--------|---|-------|----|---------|---|--------|----|---------|------------|

The marked decrease in the figures this year, as compared with last, is due to lessened traffic, in consequence of the great failure of the Scotch East herring fishing of 1899.

## RATES of PILOTAGE.

BYE-LAW fixing the Rates for Pilotage of Vessels adjusting Compasses.

At Glasgow, the 8th day of November 1897.—The Clyde Pilot Board, constituted under the Clyde Navigation Consolidation Act, 1858, the pilotage authority within the meaning of the Merchant Shipping Acts for licensing pilots for navigating vessels plying in the River and Firth of Clyde within a straight line drawn due east and west from the southernmost point of the island of Little Cumbrae, in virtue of the powers conferred on them by the said Clyde Navigation Act, repeal, as on the 14th day of April 1898, all the rates exigible for the pilotage of vessels adjusting compasses, and, in lieu thereof, fix the rates therefor, as from and after the 15th day of April 1898, as follows:—

For the services of a pilot while compasses are being adjusted within a line drawn between the Cloch Light-house and Dunoon Pier the rates shall be as follows:—

|                            | Net Reg. Tons. | £. s. d. |
|----------------------------|----------------|----------|
| Vessels under 500 - - -    | - - -          | 15 -     |
| 500 and under 750 - - -    | - - -          | 1 - -    |
| 750 " 1,000 - - -          | - - -          | 1 5 -    |
| 1,000 " 1,500 - - -        | - - -          | 1 10 -   |
| 1,500 " 2,000 - - -        | - - -          | 1 15 -   |
| 2,000 " 2,500 - - -        | - - -          | 2 - -    |
| 2,500 " 3,000 - - -        | - - -          | 2 10 -   |
| 3,000 tons and upwards - - | - - -          | 3 - -    |

With 15s. additional if the pilot is required above the Narrows in the Gareloch, or north tinny on Loch Long, or anywhere between and Cumbrae Heads.

When pilots are detained at the anchorage section with adjusting, the following addition shall, after the first six hours, be exigible:—

For every 12 hours or part of 12 hours:—

|                                     |       |
|-------------------------------------|-------|
| Vessels under 500 tons - - -        | - - - |
| Vessels of 500 tons and upwards - - | - - - |

DAVID RICHMOND, Lord F  
Chairman.

NATHL. DUNLOP, Deputy.  
T. B. MACKENZIE, Secre

The Board of Trade hereby signify their co.  
of the above bye-law.

By order of the Board of Trade, this 7  
April 1898.

FRANCIS J. S. HORW  
Assistant S

## (2.)—OUTWARDS.

Pilotage not compulsory. No record of outward pilotage; the inward pilotage only being payable to this authority for behoof of the pilots, in accordance with the regulations, copies of which accompanied previous returns. But the amount of outward pilotage for the year, according to returns made by the pilots, at the request of the authority, for the purpose of this return, is about 532*l.* 17*s.* 9*d.*

The pilotage outwards is payable directly to the pilots. The amount received by the pilots is not known to the authority, otherwise than as instructed by the returns made by the pilots, as mentioned above; and there are no materials for making any further return of the particulars required by the schedule.

*Note.*—Pilotage is not compulsory, either inwards or outwards, within the pilotage district of the Port or Harbour of Leith.

## ACCOUNT of all MONIES received and expended in respect of the PILOTAGE FUND.

## RATES of PILOTAGE.

See p. 165 of Parl. Paper, No. 154 of 1889.

AMOUNT received for PILOTAGE of VESSELS in 1899.

INWARDS and OUTWARDS.

| DISTANCES<br>for which<br>PILOTED.  | BRITISH VESSELS. |          | FOREIGN VESSELS. |          | N |
|---|------------------|----------|------------------|----------|---|
|   | COASTERS.        |          | COASTERS.        |          |   |
|   | No.              | Amount.  | No.              | Amount.  |   |
|   |                  | £. s. d. |                  | £. s. d. |   |
| The charge in the table of rates is not regulated by distance, but according to tonnage - - - | 179              | 221 12 6 | 42               | 125 13 9 | 2 |

No pilot employed by coaster outwards during the year.

Vessels from foreign ports are charged a combined pilotage fee for inwards and outwards.

## ACCOUNT of all MONIES received and expended in respect of the PILOTAGE

| Dr.  | £. s. d. | Cr.                                 |
|--|----------|-------------------------------------|
| To balance brought from last account -   | 188 6 8  | By amount paid in respect of pilots |
| To gross amount received for inward pilotage - - - -                                   | 847 6 3  | By balance carried to next account  |
| To amount of pilotage commission at 5 per cent. for year to 31st December 1898 - - - - | 17 8 7   |                                     |
| £.   | 853 1 1  |                                     |

NOTE.—These pilotage percentages, which make up the above balances, are annually applied for the ord. harbour, but they would not be sufficient to meet a reasonable proportion of the salaries paid annually to the collector.

4 January 1900.

## SUPPLEMENTAL PILOTAGE B Y E - L A W S.

At the Court at Windsor, the 27th day of December 1899.

Present :—The Queen's most Excellent Majesty in Council.

WHEREAS by the 582nd and 583rd sections of the Merchant Shipping Act, 1894, it is enacted that a pilotage authority may, by bye-law made under Part X. of that Act, do all or any of the things specified in section 582; but that a bye-law so made shall not take effect until it is submitted to Her Majesty in Council and confirmed by Order in Council:

And whereas the Belfast Harbour Commissioners, being a pilotage authority for the port and harbour of Belfast within the meaning of the said Act, have made certain bye-laws with respect to the charges to be paid to the said pilotage authority on the granting and renewing of pilotage licences, which bye-laws are in

substitution for bye-law No. 7, so far as it relates to outsea pilotage licences, already made by the said pilotage authority, and confirmed by Order in Council of the 15th day of August 1890:

And whereas it has been made to appear to Her Majesty that the proposed new bye-laws are proper and reasonable:

Now, therefore, Her Majesty, by virtue of the powers vested in Her by the Merchant Shipping Act, 1894, and by and with the advice of Her Privy Council, is pleased to approve of, and doth by this Order confirm, the said bye-laws, as set forth in the schedule hereunto annexed.

A. W. Fitzroy.

SCHEDULE to which the foregoing Order refers.

## B Y E - L A W S

*Made by the Belfast Harbour Commissioners, the Pilotage Authority of the Port of Belfast, in pursuance of the Merchant Shipping Act, 1894, supplemental to the Bye-laws for the Regulation and Management of the Pilotage, Pilots, &c., approved by Her Majesty in Council on the 5th August 1890.*

The following supplemental bye-laws shall take effect as from the 1st day of July 1899, if approved of by Her Majesty in Council by virtue of the power vested in Her by the Merchant Shipping Act:—

1. Bye-law No. 7 of the bye-laws for the regulation and management of the pilotage, pilots, &c., approved by Her Majesty in Council on the 15th August 1890, is hereby repealed so far as it relates to outsea pilotage licences.

2. The sum of 1s. shall be paid to the Commissioners on the granting and renewing of outsea pilotage licences (pilotage not compulsory).

Harbour Office, January 1900.

W. A. Currie,  
Secretary of the Belfast Harbour Commissioners.

## PORT OF CORK.

*Pilotage is Free. Limits of District.*—See p. 199 of Parl. Paper, No. 154 of 1889. These limits have since been extended by the Cork Harbour (Pilotage) Act, 1892, section 3, *g.v.*

### BYE-LAWS, &c.

See p. 111 of Parl. Paper, No. 160 of 1894.

### SUPPLEMENTAL PILOTAGE BYE-LAWS.

At the Court at Balmoral, the 7th day of October 1899.

Present :—The Queen's most Excellent Majesty in Council.

WHEREAS by the 582nd and 583rd sections of the Merchant Shipping Act, 1894, it is enacted that a pilotage authority may, by bye-law made under Part X. of that Act, do all or any of the things specified in section 582; but that a bye-law so made shall not take effect until it is submitted to Her Majesty in Council and confirmed by Order in Council:

And whereas the Cork Harbour Commissioners being a pilotage authority for the Cork pilotage district within the meaning of the said Act, have made certain bye-laws with respect to the contribution to be made towards the pilotage funds of the Cork pilotage district by the masters and mates of vessels holding pilotage certificates in pursuance of the said Act, which bye-laws are in substitution for the bye-laws for the

same purpose already made by the said pilotage authority, and confirmed by Order in Council of the 29th day of January 1894:

And whereas the provisions of section 1 of the Rules of Publication Act, 1893, have been complied with:

And whereas it has been made to appear to Her Majesty that the proposed new bye-laws are proper and reasonable:

Now, therefore, Her Majesty, by virtue of the powers vested in Her by the Merchant Shipping Act, 1894, and by and with the advice of Her Privy Council, is pleased to approve, and doth by this Order confirm, the said bye-laws as set forth in the schedule hereto annexed.

A. W. Fitzroy.

### SCHEDULE.

BYE-LAWS made by the CORK HARBOUR COMMISSIONERS, the Pilotage Authority for the Cork Pilotage District, in pursuance of the Merchant Shipping Act, 1894, section 582, as to the Contribution to the Pilotage Fund of the District to be made by Masters and Mates of Vessels holding Pilotage Certificates for the Cork Pilotage District, in substitution for the Bye-laws made by the said Commissioners and approved by Her Majesty in Council on the 29th day of January 1894.

The following bye-laws shall take effect from and after the day on which the same shall have been approved by Her Majesty in Council, by virtue of the power vested in Her by the Merchant Shipping Act, 1894.

1. Every master and mate to whom a pilotage certificate shall have been granted or shall be granted in pursuance of section 599 or of section 600 of the Merchant Shipping Act, 1894, or who shall have obtained or shall obtain a renewal of any such certificate, shall, on every occasion that he shall navigate his vessel with passengers on board, within any part of the pilotage district over which the Cork Harbour Commissioners as the pilotage authority have jurisdiction (except the Mizen Head Station and the Galley Head Station, as defined in the schedule to the Cork Harbour (Pilotage) Act, 1892), pay to the duly appointed pilot master of the said Commissioners, as a contribution towards the pilotage fund of the district, 3 per cent. of the pilotage rates which would have been payable in respect of the pilotage of his vessel within

such district (except as aforesaid) if he had not held a pilotage certificate, provided that the total amount to be contributed under the bye-law by all the masters and mates for the time being in the employment of the City of Cork Steam Packet Company, Limited, in any year commencing 1st January and ending 31st December shall not exceed one hundred and ten pounds, and a like contribution for the same period by all the masters and mates for the time being in the employment of the Clyde Shipping Company, Limited, shall not exceed forty pounds.

2. Every master or mate certified as aforesaid shall, within fourteen days next after the expiration of each calendar month, make a return in writing to the said pilot master at the office of the Cork Harbour Commissioners at Queenstown of the occasions during the calendar month immediately preceding on which he shall have navigated vessels within the said pilotage district (except as aforesaid), having passengers on board, with the names, register tonnage, and all needful particulars of the vessels so navigated, and shall within the same period from time to time pay to such pilot master as aforesaid the amounts due from him under the foregoing bye-law.

3. The contribution under these bye-laws shall be in addition to the fees payable on the issue and renewal of pilotage certificates.

4. The bye-laws made by the Cork Harbour Commissioners, and approved by Her Majesty in Council on the 29th day of January 1894, shall be rescinded on the day these bye-laws take effect.

## PORT OF CORK—continued.

*The same Rate of Pilotage to be paid Outwards.*

The several pilotage rates above specified are subject to a reduction of one-fourth part in respect of vessels propelled by steam and vessels towed by steam vessels, provided that if any such vessel shall be propelled by steam, or towed by a steam vessel for a part only of the distance for which any such rate may be payable, the reduction of one-fourth shall be made on such part only of the said rate as shall be proportionate to the distance so propelled or towed.

Steam vessels calling at Portland for coal only and steam vessels (passenger) engaged in the coasting trade are to pay, for pilotage into and out of the roads, one rate, viz. : 2s. per foot of the vessel's draft of water.

The pilot of any vessel shall, if required by the owner, or master only, provide a *boat with four men to attend her* from the roads to the quay, or from the quay to the roads, to tow her in or out, or carry ropes on shore, or to the posts, &c., as may be necessary, for which service each man is to be paid 4s. per tide ; the owner of the boat to be paid the same as a man.

A pilot taken on board at sea shall be entitled to the following additional pay, provided a perfect understanding shall have been come to between him and the master of the vessel that his services are required, and that he is to receive such additional pay ; and the same shall have been recorded in the log book of his pilot cutter, and in that of the vessel, and a certificate thereof shall have been given him by the master.

## INTRODUCTION.

*Sea Casualties to Vessels belonging to the United Kingdom.*

The total number of sea casualties recorded in 1898-99 (total losses and serious and minor casualties) was 6,967, or 63 less than in 1897-98, and 634 less than in 1896-97, but 95 more than in 1895-96.

The total number of losses and serious casualties together was 1,858, which was 101 less than in 1897-98, 295 less than in 1896-97 and 184 less than in 1895-96.

The number of total losses was 400 (tonnage 175,681), the figures being lower by 19 as regards number, and higher by 33,582 as regards tonnage, than for 1897-98; lower by 108 as regards number, and by 1,888 as regards tonnage, than for 1896-97; and lower by 192 in number, and by 32,413 in tons, than the average for the last 23 years. The number of vessels lost was lower than in any of the previous 22 years except 1892-93, while the tonnage lost was lower than in any of those years except three.

*Total Losses at Sea of Vessels of all Kinds belonging to the United Kingdom.*

The description of the vessels (*i.e.*, sailing or steam) and the nature of the casualties (*i.e.*, foundering, strandings, collisions, other causes, missing vessels) which contributed to the total losses during the last 23 years are shown in the following Tables. Casualties to Her Majesty's ships are not included in any of the tables in the preface, nor in any of the tables in the body of the return except tables 53, 54, and 57 to 61:—

I.—STATEMENT showing the Number and Tonnage of Vessels belonging to the United Kingdom Totally Lost at Sea during each of the 23 years ended on the 30th June 1899, and the Nature of the Casualties by which they were lost:—

The foregoing Table shows that excluding Her Majesty's ships, 13,607 vessels of all descriptions (tonnage 4,786,160) belonging to the United Kingdom were totally lost in the 23 years ended June 1899. The average annual loss was 592 vessels (tonnage 208,094) as compared with a loss of 400 vessels (tonnage 175,681) in 1898-99. The losses of sailing vessels fell from an average of 476 vessels (tonnage 119,085) for the previous 22 years to an actual loss of 276 vessels (tonnage 53,479) in 1898-99. The losses of steam vessels were 124 (tonnage 122,202), while the average of losses in the previous 22 years was 124 vessels (tonnage 90,482).

*Lives Lost by Sea Casualties to Vessels of all Kinds belonging to the United Kingdom.*

The following Tables include not only the lives lost by the wrecks described in the foregoing Tables, but also the lives lost by casualties not resulting in the total loss of the vessels.

II.—STATEMENT showing the Number of Lives Lost at Sea by Wrecks of and Casualties to Vessels belonging to the United Kingdom during each of the 23 years ended on the 30th June 1899, showing also the Nature of the Wrecks and Casualties, and distinguishing Crew from Passengers :—

(a.) Sailing Vessels.

| Total   | 603         | 2,966                 | 455   | 3,421        | 1,049       | 6,233                 | 1,200 | 7,433        | 671         | 2,406                 | 1,436 | 3,842        | 2,397         | 3,765                 | 1,379 | 5,144        | 1,630            | 18,685                | 1,217 | 19,902       | 6,350       | 34,055                | 5,687 | 39,742 |

The foregoing Tables show that during the last 23 years 6,350 wrecks and casualties to ships belonging to the United Kingdom have been attended with fatal results to 39,742 persons, of whom 34,055 were members of the crews and 5,687 were passengers, pilots, or other persons not on articles of agreement.

The average annual loss during the 23 years was 1,728 persons, consisting of 1,481 crew and 247 passengers, and the loss in 1898-99 was 1,360 persons, of whom 1,201 were crew and 159 were passengers. Compared with the average for the previous 22 years, the figures show a decrease of 292 in the number of seamen and of 92 in the number of passengers lost. The loss of life in 1895-96 was swollen by the loss of 247 lives through the wreck of the "Drummond Castle," and the loss of 277 lives through the sinking of the "On Wo," of London, by collision with the "Newchwang." The number of passengers lost in 1894-95 was swollen by the large number (1,150) of Chinese soldiers drowned by the sinking of the "Kow Shing," of London.

The average number of seamen lost during the 23 years in sailing vessels was 977 and of passengers 53, against 535 seamen and 24 passengers lost in 1898-99.

The average number of seamen lost in steamships was 504 and of passengers 194, against 666 seamen and 135 passengers lost in 1898-99. The loss of life in steamships in 1898-99 was swollen by the loss of 106 lives (62 crew and 44 passengers) through the wreck of the "Mohegan," and of 105 lives (19 crew and 86 passengers) through the wreck of the "Stella."

Tables relating to loss of life from registered trading vessels only are given later on.

#### *Sea Casualties to Vessels of all Kinds belonging to British Possessions Abroad.*

The total number of sea casualties which occurred in 1898-99 (total losses and serious and minor casualties) was 699.

The number of Total Losses was 270 (tonnage 37,216), against an average yearly loss of 321 vessels and 58,889 tons for the previous 22 years.

III.—STATEMENT showing the Number and Tonnage of Sailing and Steam Vessels belonging to British Possessions Abroad reported as Totally Lost at Sea during each of the 23 Years ended on the 30th June 1899 :—

| 1897-98   | 187      | 28,628    | 23       | 8,134    | 210      | 36,762    |
| 1898-99   | 252      | 30,998    | 18       | 6,218    | 270      | 37,216    |
| Total ... | 6,903    | 1,219,442 | 434      | 113,341  | 7,337    | 1,332,783 |

The serious casualties, not amounting to total loss, were 180, of which 54 occurred to steam vessels.

The loss of life in 1898-99 was 238, against 455 in 1897-98, 210 in 1896-97, 217 in 1895-96, 499 in 1894-95, 348 in 1893-94, 346 in 1892-93, 943 in 1891-92, 289 in 1890-91, 340 in 1889-90, 227 in 1888-89, 991 in 1887-88, 1,529 in 1886-87, 818 in 1885-86, and an average of 549 for the 10 years preceding 1886-87.

The number of lives lost in 1897-98 was swollen by the foundering of the "Sri Hong Ann," of Singapore, with the loss of 119 lives; and the number in 1891-92 by the foundering of the "Namchow," of Penang, with the loss of 361 lives, and by the disappearance of the "Deccan," of Bombay, with the loss of 258 lives.

The number in 1887-88 was swollen by the loss of 495 Chinese passengers in the "Wah Yeung," of Hong Kong, and 131 passengers in a ferry boat on the river Hooghly below the boundary fixed for river casualties. The number in 1886-87 was swollen by the loss of 735 Indian passengers in the missing steamer "Sir John Lawrence."

The number of missing vessels in 1898-99 was 16, against 8 in 1897-98, 7 in 1896-97, 9 in 1895-96, 18 in 1894-95, 16 in 1893-94, 19 in 1892-93, 12 in 1891-92, 21 in 1890-91, 15 in 1889-90, 14 in 1888-89, 21 in 1887-88, 14 in 1886-87, and an average of 28 in the 10 years preceding 1886-87. The missing vessels in 1898-99 were as follows :—

*Sea Casualties to British Vessels of all Kinds.—Summary.*

The total number of sea casualties (total losses and serious and minor casualties) which occurred to British vessels was 7,666.

The number of Total Losses at Sea was 670 (tonnage 212,897). This is, as regards vessels, lower than in any of the previous 22 years except 1892-93, and 1897-98, and, as regards tonnage, lower than in any of those years except four.

—STATEMENT showing the Total Number and Tonnage of Sailing and Steam Vessels belonging to the United Kingdom and British Possessions Abroad reported as Totally Lost at Sea during each of the 23 years ended on 30th June 1899.

| Total ... | 17,652   | 3,892,786 | 3,292    | 2,226,157 | 20,944   | 6,118,943 |

In 1898-99 the loss of life by sea casualties was 1,598 against 1,136 in 1897-98, 247 in 1896-97, 2,025 in 1895-96, 3,043 in 1894-95, 1,997 in 1893-94, 1,542 in 1892-93, 2,315 in 1891-92, 2,197 in 1890-91, 1,627 in 1889-90, 2,233 in 1888-89, 454 in 1887-88, 3,445 in 1886-87, and an average of 2,500 for the 10 years preceding 1886-87. As already explained, the number lost in 1894-95 was greatly swollen by the loss of Chinese soldiers in the "Kow Shing."

The number of missing vessels in 1898-99 was 51, against 31 in 1897-98, 40 in 1896-97, 55 in 1895-96, 101 in 1894-95, 92 in 1893-94, 51 in 1892-93, 71 in 1891-92, 52 in 1890-91, 67 in 1889-90, 70 in 1888-89, 70 in 1887-88, 80 in 1886-87, and an average of 125 in the 10 years preceding 1886-87. The missing vessels in 1898-99 are as follows:—

|                 |     |         |         |            |     |
|-----------------|-----|---------|---------|------------|-----|
| Sailing vessels | 38, | tonnage | 17,096, | lives lost | 397 |
| Steam           | 13  | „       | 19,083  | „          | 338 |
| Total ...       | 51  |         | 36,179  |            | 735 |

#### *Casualties to Foreign Vessels.*

The number of casualties reported in 1898-99 as having occurred to Foreign vessels on or near the coasts of the United Kingdom and British Possessions Abroad was 679 (tonnage 360,382), of which 129 (tonnage 44,962) were attended with total loss of the vessels. The losses of steamships were 14 (tonnage 13,997), and of sailing ships 115 (tonnage 30,965). The number of casualties in rivers and harbours was 453 (tonnage 14,833), but of the vessels only 11 (tonnage 3,097) were totally lost.

One hundred and thirty-five lives were lost by 35 casualties to Foreign vessels on or near British coasts, and 4 by 3 casualties to Foreign vessels in British rivers or harbours.

#### *Deaths of Seamen from all Causes.*

The gross results as regards mortality amongst seamen in British vessels will be found in the following Abstracts, full details being given in the body of the Return in the tables referred to in the headings.

Deaths in unregistered merchant vessels, registered river craft, and yachts, except those arising from wreck and casualty, are not included in the following tables, and there is also reason to believe that the deaths in Colonial sea-going registered vessels and fishing vessels are not all reported. Amongst the deaths shown as having occurred in Rivers and harbours in 1898-99 are those of 278 seamen who died from accident or disease after discharge from ships registered in the United Kingdom, and 16 after discharge from ships registered in the Colonies:—

V.—STATEMENT showing the Number of Deaths of Seamen from all causes at Sea in Vessels belonging to the United Kingdom.

| Years                               | Deaths in Trading Vessels registered under the Merchant Shipping Acts. |                                     |                 |        | Deaths in Fishing Vessels.                                   |                                     |                 |        | Deaths by Wrecks of, or Casualties to, other Boats and Craft. *Lives Saved from Shipwreck.*

To assist in realising the risk to human life by shipwreck, it may be useful to take into account the lives saved, as well as the lives lost.

The total number of seamen and passengers saved from wrecks of British vessels everywhere, and of Foreign vessels on or near the coasts of British territory, during the year 1898-99 was 7,033, of whom 2,679 were saved on or near the coasts of the United Kingdom, 2,104 on or near the coasts of British Possessions Abroad, 1,213 from British vessels on or near the coasts of Foreign countries, and 1,037 on the high seas.

Of the 2,679 lives saved on the coasts of the United Kingdom, *i.e.*, within a line drawn round the coasts about ten miles from the most prominent headlands as shown on the first chart in this return, 242 were saved by the rocket apparatus and assistance from the shore, 478 were saved by lifeboats, 200 were saved by coast-guard boats and other craft, 561 were saved by passing ships, and 1,092 were saved by the ships' own boats.

Of the 4,354 lives saved from wrecks abroad, 101 were saved by rocket apparatus and ropes from shore, and 133 by lifeboats, but the majority were saved by the ships' own boats (2,405), and by passing ships (1,405).

*Rates of Loss amongst Vessels and their Crews.*

The tables in the Wreck Abstract provide some of the materials for an investigation of the extent to which the various classes of vessels comprising the British Mercantile Marine, and their crews, are affected by the losses reported in each year. The statements which follow show the results of such an investigation for each of the fifteen years ended June 1899, as regards sea casualties to merchant vessels registered in the United Kingdom.

The figures relating to losses in each year ending June 30th are compared with the figures relating to employment in the calendar year ended in the previous December, with the exception that for the calendar year 1884 the figures relating to employment are not available in the form required, and the losses for the statistical year 1884-85 are therefore compared with the employment in the year ended in the following December.

Fishing vessels and their crews, and Lascars, are entirely excluded from the figures in the following tables, and yachts and their crews are entirely excluded from the figures for the last twelve years, though in the earlier years some were included. Casualties and loss of life in rivers and harbours are also excluded.

*Percentages of Sea Casualties amongst employed Vessels registered in the United Kingdom.*

XVI.—STATEMENT showing the Number and Tonnage of Merchant Vessels registered in the United Kingdom which were reported during each of the Fifteen Statistical Years ended June 1899 to have met with Sea Casualties, compared with the Number and Tonnage of Merchant Vessels registered in the United Kingdom which were employed during each of the Fifteen Calendar Years ended December 1898, and remained on the Register at the end of each Year.

*Percentages of Sea Casualties involving Loss of Life, amongst employed Vessels registered in the United Kingdom, and of Deaths of Seamen by such Casualties amongst Seamen employed.*

XVII.—STATEMENT showing the Number and Tonnage of Merchant Vessels registered in the United Kingdom which were reported during each of the Fifteen Statistical Years ended June 1899 to have met with Sea Casualties involving Loss of Life, compared with the Number and Tonnage of Merchant Vessels which were employed during each of the Fifteen Calendar Years ended December 1898, and remained on the Register at the end of each Year; and also the number of Seamen lost compared with the Total Number of Seamen required to man the employed Vessels.

| Years. | Vessels which met with Sea Casualties attended with Loss of Life. |          |   | Total Number of Seamen employed (including Masters). | Lives Lost in Vessels Totally Lost. |   |                        |        | Lives Lost in Vessels Partially Lost. |   |                        |        |
|--------|---|----------|---|--|-------------------------------------|---|------------------------|--------|---------------------------------------|---|------------------------|--------|
|        | No.   | Tonnage. | Percentage of Tonnage attended with Loss of Life to Total Tonnage employed. |  | Crew.                               |   | Passengers and others. | Total. | Crew.                                 |   | Passengers and others. | Total. |
|        |   |          |   |  | No.                                 | Percentage of Men lost to Men employed. |                        |        | No.                                   | Percentage of Men lost to Men employed. |                        |        |

### *Inquiries into Shipping Casualties.*

Preliminary inquiry is held into the circumstances attending every casualty to a British ship, and if it appear from the information thus obtained that any public interest would be served by further investigation, a formal inquiry is instituted.

During the year 1898-99, 177 formal inquiries were held, of which 77 were held in the United Kingdom before magistrates, 89 before courts in British Possessions Abroad, and 11 before naval courts in Foreign countries. In 111 instances the casualties were found to be owing, partly or wholly, to neglect or default on the part of persons on board the vessels, and in 57 the inquiry resulted in the cancellation or suspension of the certificates of the masters or officers.

Seven inquiries were also held by inspectors appointed by the Board of Trade.

### *Explanatory Statement.*

The figures relating to vessels and "crews" employed are taken from the Annual Statement of Navigation and Shipping, the number of hands, including the master and officers, but excluding Lascars, on the first articles of agreement, being allowed for every vessel which went to sea during the year and remained on the register at the end of the year. A certain per-centage of the vessels which are thus included in the employment tables must necessarily have been under repair or out of employment for some portion of the year, and the aggregate of the crews with which they are credited must therefore be in excess of the number of seamen constantly employed. If the result of the annual census taken four times in the year 1898 be assumed to represent the actual number of seamen constantly employed, that number is less by 11 per cent. than the number on which the foregoing calculations are based.

The words "crew" and "seamen" in the foregoing statements and throughout the return include, unless otherwise stated, masters and all persons entered in the articles of agreement, but the last three tables do not include Lascars or other Asiatics on Oriental articles of agreement. Pilots, masters' families, and all other persons not on the articles of agreement, are included under the head of "passengers."

For the number of Lascars whose deaths are included in the tables in Parts I. and II., see Tables 18 and 35.

When tonnage is given in the return it is net register tonnage.

The words "United Kingdom," as used in this return, include the Isle of Man, but do not include the Channel Islands.

Casualties to and loss of life from Her Majesty's ships have been entirely eliminated from the tables in the preface, and are not included in any of the tables in the body of the return except Tables 53, 54, and 57 to 61.

## WRECK ABSTRACTS, 1898-99.

## CONTENTS.

WRECK CHARTS for the year ended 30th June 1899, viz.:—United Kingdom, England and Wales, Scotland, Ireland, and the two Hemispheres.

## PART I.

(NOTE.—Sailing Vessels are distinguished from Steam Vessels throughout the Return, except in Tables 60 to 63 and 87 to 89.)

Tables relating to SEA CASUALTIES TO, AND LIVES LOST AT SEA FROM, MERCHANT VESSELS REGISTERED IN THE UNITED KINGDOM under the Merchant Shipping Acts, exclusive of Yachts and Fishing Vessels.

## PART I.

---

Tables relating to SEA CASUALTIES to, and LIVES LOST AT SEA from, MERCHANT VESSELS REGISTERED IN THE UNITED KINGDOM under the Merchant Shipping Acts, exclusive of Yachts and Fishing Vessels.

---

Sea Casualties to Merchant Vessels registered in the United Kingdom.

TABLE 1. Totals :—Statement showing the Number and Tonnage of Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

| Nature of the Casualties. | Total Losses. |          | Serious Casualties. |           | Minor Casualties. |           | Total. |           |

## Sea Casualties to Merchant Vessels registered in the United Kingdom.

**TABLE 2. Home and Foreign Trades:—**Statement showing the Number and Tonnage of Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties, and whether the Vessels were engaged in the HOME or the FOREIGN TRADE.

## (a.) Sailing Vessels.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

## Sea Casualties to Merchant Vessels registered in the United Kingdom.

**TABLE 3. CARGOES:**—Statement showing the Number of Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties and the Description of CARGOES carried by the Vessels when the Casualties occurred.

## (a.) Sailing Vessels.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

Notes.—For the cargoes of merchant vessels registered in the United Kingdom which met with Sea Casualties, see Table 3.

## Sea Casualties to Merchant Vessels registered in the United Kingdom.

TABLE 5. **Tonnages**.—Statement showing the Number of Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties and the APPROXIMATE TONNAGES of the Vessels.(a.) **Sailing Vessels.**

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

## Sea Casualties to Merchant Vessels registered in the United Kingdom.

**TABLE 6. Ages:—**Statement showing the Number of Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties and the AGES of the Vessels when the Casualties occurred.

(a.) **Sailing Vessels.**

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

*Note*--For the Ages of all Merchant Vessels registered in the United Kingdom which met with Sea Casualties, see Table A.

## Sea Casualties to Merchant Vessels registered in the United Kingdom.

TABLE 8.—Iron, Steel, Composite, or Wood :—Statement showing the Number and Tonnage of Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties, and the MATERIALS of which the Vessels were CONSTRUCTED.

## (a.) Sailing Vessels.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

## Sea Casualties to Merchant Vessels registered in the United Kingdom.

TABLE 9. Causes :—Statement showing the Number of Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties (other than Collisions\*) occurred on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties (other than Collisions) Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties and, as far as reported, the CAUSES to which the Casualties were attributed.

## (a.) Sailing Vessels.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

\* For the causes of collisions, see Part III., Table 61.

## Sea Casualties to Merchant Vessels registered in the United Kingdom.

TABLE 9. Causes—continued.

## (b.) Steam Vessels.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

## Sea Casualties to Merchant Vessels registered in the United Kingdom.

**TABLE 10. Localities:—**Statement showing the Number of Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties and the LOCALITIES where the Casualties occurred.

## (a.) Sailing Vessels.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

\* By "classed" vessels are understood those which were classed in Lloyd's Register, Liverpool Book, or Bureau Veritas. The "unclassed" division probably includes a number of vessels which were classed in some of the smaller registries.

## Lives Lost by Sea Casualties to Merchant Vessels registered in the United Kingdom.

TABLE 12. Seamen and Passengers Lost.—Totals—Home and Foreign Trades:—Statement showing the Number of Lives Lost in Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Lives Lost in Yachts and Fishing Vessels so registered) by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or were reported during the same period as having occurred Abroad, showing also the Nature of the Casualties and the Number and Tonnage of the Vessels in which the Lives were Lost, distinguishing the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost, the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, and the Number of Crew Lost from the Number of Passengers Lost, and further distinguishing the Lives Lost in Vessels in the Home Trade from those Lost in Vessels in the Foreign Trade.

## (a.) Lives Lost in Vessels Totally Lost.

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

## Lives Lost by Sea Casualties to Merchant Vessels registered in the United Kingdom.

TABLE 15. **Seamen Lost.—Ages of the Vessels:—**Statement showing the Number of Seamen Lost in Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Seamen Lost in Yachts and Fishing Vessels so registered) by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or were reported during the same period as having occurred Abroad, together with the Number of Vessels in which the Lives were Lost, distinguishing the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost, and showing also the Nature of the Casualties, and the AGES OF THE VESSELS.

(a.) **Lives Lost in Sailing Vessels.**

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

## Lives Lost by Sea Casualties to Merchant Vessels registered in the United Kingdom.

**TABLE 16. Seamen Lost.—Localities:—**Statement showing the Number of Seamen Lost in Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Seamen Lost in Yachts and Fishing Vessels so registered) by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or were reported during the same period as having occurred Abroad, together with the Number of Vessels in which the Lives were Lost, distinguishing the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost, and showing also the Nature of the Casualties and the LOCALITIES where the Loss of Life occurred.

## (a.) Lives Lost in Sailing Vessels.

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

Lives Lost by Sea Casualties to Merchant Vessels registered in the United Kingdom.

**TABLE 17. Seamen and Passengers Lost. Classification\*:**—Statement showing the Number of Lives Lost in Vessels registered in the United Kingdom under the Merchant Shipping Act (exclusive of Lives Lost in Yachts and Fishing Vessels so registered) by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or were reported during the same period as having occurred Abroad, showing also the Nature of the Casualties and the Number of Vessels in which the Lives were Lost, and distinguishing the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost, the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, and the Number of Crew Lost from the Number of Passengers Lost, and further distinguishing the Lives Lost in Classed\* Vessels from those Lost in Unclassed\* Vessels.

## (a.) Lives Lost in Vessels Totally Lost.

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

\* By "classed" vessels are understood those which were classed in Lloyd's Register, Liverpool Book, or Bureau Veritas. The "unclassified" division probably includes a number of vessels classed in some of the smaller registries.

## Deaths at Sea from all Causes in Merchant Vessels registered in the United Kingdom.

TABLE 18. Deaths at Sea from all Causes. Grand Totals :—Statement showing the Total Number of Deaths at Sea in Vessels registered in the United Kingdom under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) arising from :—

(1.) Sea Casualties which occurred on or near the Coasts of the United Kingdom, or were reported from Abroad, during the Year 1898-99 ;

(2.) Accidents other than Wreck reported during 1898-99 ;

(3.) Disease, Murder, Suicide, &c., reported during 1898-99 ;

distinguishing the Deaths in the Home Trade from those in the Foreign Trade, the Deaths in Sailing Vessels from those in Steam Vessels, and showing respectively the Number of Deaths of Seamen, Lascars, and Passengers.

Note.—For the tonnage and cargoes of Merchant Vessels registered in British Possessions Abroad which were totally lost at sea, see Table 21.

## Sea Casualties to Merchant Vessels registered in British Possessions Abroad.

TABLE 21. **Cargoes and Tonnage. Total Losses only** :—Statement showing the Number and Tonnage of Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) which were Totally Lost by Sea Casualties on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having been Totally Lost by Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature of the Casualties and the Description of CARGOES carried by the Vessels when Lost.

(a.) **Sailing Vessels.**

Note.—For the cargoes of Merchant Vessels registered in British Possessions Abroad which met with Sea Casualties, see Table 22.

## Sea Casualties to Merchant Vessels registered in British Possessions Abroad.

TABLE 22. Tonnages :—Statement showing the Number of Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties and the APPROXIMATE TONNAGES of the Vessels.

## (a.) Sailing Vessels.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

## Sea Casualties to Merchant Vessels registered in British Possessions Abroad.

TABLE 23. **AGES**.—Statement showing the Number of Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties and the AGES of the Vessels when the Casualties occurred.

(a.) **Sailing Vessels.**

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

Note.—For the tonnage and ages of Merchant Vessels registered in British Possessions Abroad which were totally lost at sea, see Table 24.

## Sea Casualties to Merchant Vessels registered in British Possessions Abroad.

**TABLE 24. Ages and Tonnage.—Total Losses only :—**Statement showing the Number and Tonnage of Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) which were Totally Lost by Sea Casualties on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having been Totally Lost by Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature of the Casualties and the AGES of the Vessels.

## (a.) Sailing Vessels.

*Note.*—For the ages of Merchant Vessels registered in British Possessions Abroad which met with Sea Casualties, see Table 23.

Sea Casualties to Merchant Vessels registered in British Possessions Abroad.

TABLE 25. Iron, Steel, Composite, or Wood:—Statement showing the Number and Tonnage of Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties and the MATERIALS of which the Vessels were constructed.

(a.) Sailing Vessels.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

## Sea Casualties to Merchant Vessels registered in British Possessions Abroad.

TABLE 26. **Causes**.—Statement showing the Number of Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties (other than Collisions\*) occurred on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties (other than Collisions) Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties, and, as far as reported, the CAUSES to which the Casualties were attributed.

(a.) **Sailing Vessels.**

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

## Sea Casualties to Merchant Vessels registered in British Possessions Abroad.

TABLE 27. Localities :—Statement showing the Number of Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties and the LOCALITIES where the Casualties occurred.

## (a.) Sailing Vessels.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

\* "Classed" vessels comprise those classed in Lloyd's Register, Liverpool Book, or Bureau Veritas. The "unclassified" division probably contains a number of vessels classed in some of the smaller registries.

## Lives Lost by Sea Casualties to Merchant Vessels registered in British Possessions Abroad.

**TABLE 29. Seamen and Passengers Lost.—Totals :—**Statement showing the Number of Lives Lost in Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Lives Lost in Yachts and Fishing Vessels so registered) by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or were reported during the same period as having occurred Abroad, showing also the Nature of the Casualties and the Number and Tonnage of the Vessels in which the Lives were Lost, and distinguishing the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, the Number of Crew Lost from the Number of Passengers Lost, and the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost.

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

## Lives Lost by Sea Casualties to Merchant Vessels registered in British Possessions Abroad.

**TABLE 30. Seamen Lost.—Cargoes:**—Statement showing the Number of Seamen Lost in Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Seamen Lost in Yachts and Fishing Vessels so registered) by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or were reported during the same period as having occurred Abroad, together with the Number of Vessels in which the Lives were Lost, distinguishing the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost, and showing also the Nature of the Casualties and the Description of CARGOES carried by the Vessels when the Lives were Lost.

## (a.) Lives Lost in Sailing Vessels.

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

**Lives Lost by Sea Casualties to Merchant Vessels registered in British Possessions Abroad.**

**TABLE 31. Seamen Lost.—Tonnages:**—Statement showing the Number of Seamen Lost in Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Seamen Lost in Yachts and Fishing Vessels so registered) by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or were reported during the same period as having occurred Abroad, together with the Number of Vessels in which the Lives were Lost, distinguishing the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost, and showing also the Nature of the Casualties and the APPROXIMATE TONNAGES of the Vessels.

**(a.) Lives Lost in Sailing Vessels.**

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

Lives Lost by Sea Casualties to Merchant Vessels registered in British Possessions Abroad.

TABLE 32. **Seamen Lost.—Ages of the Vessels :—**Statement showing the Number of Seamen Lost in Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Seamen Lost in Yachts and Fishing Vessels so registered) by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or were reported during the same period as having occurred Abroad, together with the Number of Vessels in which the Lives were Lost, distinguishing the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost, and showing also the Nature of the Casualties and the AGES of the Vessels.

(a.) **Lives Lost in Sailing Vessels.**

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

**Lives Lost by Sea Casualties to Merchant Vessels registered in British Possessions Abroad.**

**TABLE 33. Seamen Lost.—Localities :—**Statement showing the Number of Seamen Lost in Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Seamen Lost in Yachts and Fishing Vessels so registered) by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or were reported during the same period as having occurred Abroad, together with the Number of Vessels in which the Lives were Lost, distinguishing the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost, the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, and showing also the Nature of the Casualties and the LOCALITIES where the Loss of Life occurred.

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

Lives Lost by Sea Casualties to Merchant Vessels registered in British Possessions  
Abroad.

**TABLE 34. Seamen and Passengers Lost.—Classification\* :—**Statement showing the Number of Lives Lost in Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Lives Lost in Yachts and Fishing Vessels so registered) by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the year ended 30th June 1899, or were reported during the same period as having occurred Abroad, showing also the Nature of the Casualties and the Number of Vessels in which the Lives were Lost, and distinguishing the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost, the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, and the Number of Crew Lost from the Number of Passengers Lost, and further distinguishing the LIVES LOST in **CLASSED\*** Vessels from those Lost in **UNCLASSED\*** Vessels.

**(a.) Lives Lost in Vessels Totally Lost.**

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

\* By "classified" vessels are understood those which were classed in Lloyd's Register, Liverpool Book, or Bureau Veritas. The "unclassified" division probably includes a number of vessels classed in some of the smaller registries.

Deaths at Sea from all Causes in Merchant Vessels registered in British Possessions Abroad.

TABLE 35. Deaths at Sea from all Causes. Grand Totals:—Statement showing the Total Number of Deaths at Sea in Vessels registered in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered) arising from :—

- (1.) Sea Casualties which occurred on or near the Coasts of the United Kingdom or were reported from Abroad during the Year 1898–99 ;
  - (2.) Accidents other than Wreck reported during 1898–99 ;
  - (3.) Disease, Murder, Suicide, &c. reported during 1898–99 ;
- distinguishing the Deaths in Sailing Vessels from those in Steam Vessels, and showing respectively the Number of Deaths of Seamen, Lascars, and Passengers.

| Cause of Death.   | Deaths in Sailing Vessels. |          |              | Deaths in Steam Vessels. |          |              | Total.              |          |              |

## Lives Lost by Sea Casualties to British registered Merchant Vessels.

**TABLE 37. Seamen and Passengers Lost.—Summary:—**Statement showing the Number of LIVES LOST IN Vessels registered in the United Kingdom and British Possessions Abroad under the Merchant Shipping Acts (exclusive of Lives Lost in Yachts and Fishing Vessels so registered) by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or were reported during the same period as having occurred Abroad, showing also the Nature of the Casualties and the Number and Tonnage of the Vessels in which the Lives were Lost, and distinguishing the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, the Number of Crew Lost from the Number of Passengers Lost, and the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost—(Totals of Tables 12 and 29.)

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

Deaths at Sea from all Causes in British registered Merchant Vessels.

TABLE 38. Deaths at Sea from all Causes. Summary:—Statement showing the Total Number of Deaths at Sea in Vessels registered in the United Kingdom and British Possessions Abroad under the Merchant Shipping Acts (exclusive of Yachts and Fishing Vessels so registered), arising from :

- (1.) Sea Casualties which occurred on or near the Coasts of the United Kingdom or were reported from Abroad during the Year 1898-99 ;
  - (2.) Accidents other than Wreck reported during 1898-99 ;
  - (3.) Disease, Murder, Suicide, &c., reported during 1898-99 ;
- distinguishing the Deaths in Sailing Vessels from those in Steam Vessels, and showing respectively the Number of Deaths of Seamen, Lascars, and Passengers.

(Totals of Tables 18 and 35.)

| Cause of Death.   | Deaths in Sailing Vessels. |          |                  | Deaths in Steam Vessels.  |            |                  | Total.                    |            |                  |

Note.—As regards yachts belonging to British Possessions Abroad, only one was reported during 1898-99 as having met with a sea casualty. This was a half-decked sailing yacht which sank at Lyttelton, N.Z., but was afterwards raised. No loss of life was reported.

Lives Lost by Sea Casualties to Yachts and Pleasure Boats belonging to the United Kingdom.

TABLE 44. Seamen and Passengers Lost:—Statement showing the Number of LIVES LOST in Yachts and Pleasure Boats (REGISTERED AND UNREGISTERED) belonging to the United Kingdom by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or were reported during the same period as having occurred Abroad, showing also the Nature of the Casualties and the Number and Tonnage of the Vessels in which the Lives were Lost, and distinguishing the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, the Number of Crew Lost from the Number of Passengers Lost, and the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost.

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

## Sea Casualties to British Vessels of all Kinds.

TABLE 53. Grand Totals.—British Vessels of all Kinds.—Localities :—Statement showing the Number of all Vessels belonging to the United Kingdom and British Possessions Abroad to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties and the LOCALITIES where the Casualties occurred.

## (a.) Sailing Vessels.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

Note.—Lives lost by Sea Casualties to vessels of the Royal Navy are included in this Table and in Table 58 but in no other Table in the Return.

Sea Casualties to Foreign Vessels.

TABLE 55. Totals :—Statement showing the Number and Tonnage of Foreign Vessels of all Kinds to which Sea Casualties occurred on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or which were reported during the same period as having met with Sea Casualties on or near the Coasts of British Possessions Abroad, distinguishing Sailing Vessels from Steam Vessels, and showing also the Nature and Results of the Casualties.

(A vessel to which more than one casualty occurred in the period is entered for each casualty.)

Lives Lost by Sea Casualties to Foreign Vessels.

TABLE 56. Seamen and Passengers Lost :—Statement showing the Number of Lives Lost by Sea Casualties which occurred to Foreign Vessels of all Kinds on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or were reported during the same period as having occurred to such Vessels on or near the Coasts of British Possessions Abroad, showing also the Nature of the Casualties and the Number and Tonnage of the Vessels in which the Lives were Lost, and distinguishing the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, the Number of Crew Lost from the Number of Passengers Lost, and the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost.

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

Note.—Sea Casualties to vessels of the Royal Navy are included in this Table and in Tables 53, 59, 60, and 61, but in no other Table in the Return.

## Lives Lost by Sea Casualties to British and Foreign Vessels.

TABLE 58. Seamen and Passengers Lost by Sea Casualties.—Grand Totals:—Statement showing the Total Number of LIVES LOST IN BRITISH AND FOREIGN VESSELS by Sea Casualties which occurred to such Vessels on or near the Coasts of the United Kingdom during the Year ended 30th June 1899, or were reported during the same period as having occurred to British Vessels Abroad or to Foreign Vessels on or near the Coasts of British Possessions Abroad, together with the Number of Vessels in which the Lives were Lost, distinguishing the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, the Number of Crew Lost from the Number of Passengers Lost, and showing also the Nature of the Casualties and the LOCALITIES where the Loss of Life occurred.

## (a.) Lives Lost in Sailing Vessels.

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

Note.—Lives lost by Sea Casualties to vessels of the Royal Navy are included in this Table and in Table 54 but in no other Table in the Report.

## Collisions at Sea between Vessels of all Kinds at Home and Abroad.

**TABLE 59. Collisions at Sea.—Nationality of Vessels (British or Foreign), and whether Sailing or Steam:—Statement showing the NUMBER of COLLISIONS which occurred on or near the COASTS of the UNITED KINGDOM during the Year ended 30th June 1899, or were reported during the same period as having occurred to BRITISH VESSELS Abroad, or to FOREIGN VESSELS on or near the COASTS of BRITISH POSSESSIONS Abroad, showing the number of Collisions between BRITISH VESSELS, the number between BRITISH VESSELS and FOREIGN VESSELS, and the Number between FOREIGN VESSELS, and distinguishing Collisions resulting in the TOTAL\* LOSS of one or both Vessels from those resulting in Partial Loss of both Vessels, and further distinguishing the Collisions on or near the COASTS of the UNITED KINGDOM from those which occurred elsewhere.**

| Result of Collision. | Collisions between British Vessels. |                   |   | Collisions between British and Foreign Vessels.                |   |   |  | Total Number of Collisions in which British Vessels were involved. | No. of Collisions between Foreign Vessels. | Total of all Collisions. |       |
|----------------------|-------------------------------------|-------------------|---|--|---|---|--|--|--|--------------------------|-------|
|                      | Between Sailing Vessels.            | Between Steamers. | Between a Sailing Vessel and a Steamer. | Between a British Sailing Vessel and a Foreign Sailing Vessel. | Between a British Steamer and a Foreign Sailing Vessel. | Between a British Sailing Vessel and a Foreign Steamer. | Between a British Steamer and a Foreign Steamer. |  |  |                          |       |
| At Home              | Total loss ..                       | 9                 | 10                                      | 24   | 2   | 6   | 4  | 7  | 64   | 2                        | 66    |
|                      | Partial damage ..                   | 218               | 152                                     | 201  | 46  | 41  | 31   | 27   | 756  | 18                       | 774   |
|                      | Total ..                            | 227               | 162                                     | 225  | 48  | 47  | 35   | 34   | 820  | 20                       | 840   |
| Abroad               | Total loss ..                       | 2                 | 5                                       | 6  | 1   | —   | 3  | 4  | 37   | —                        | 25    |
|                      | Partial damage ..                   | 45                | 44                                      | 22   | 37  | 70  | 11   | 48   | 289  | —                        | 285   |
|                      | Total ..                            | 47                | 49                                      | 28   | 38  | 70  | 14   | 52   | 304  | —                        | 304   |
| Grand Total          | Total loss ..                       | 11                | 15                                      | 30   | 3   | 6   | 7  | 11   | 85   | 2                        | 87    |
|                      | Partial damage ..                   | 303               | 193                                     | 223  | 83  | 117   | 42   | 75   | 1,039                                      | 18                       | 1,057 |
|                      | Total loss ..                       | 314               | 211                                     | 255  | 86  | 123   | 40   | 86   | 1,124                                      | 20                       | 1,144 |

\* As collisions sometimes occur in which both the vessels are totally lost, the number of collisions resulting in total loss, as shown in this Table, will not be found to correspond with the actual number of vessels totally lost by collision.

## Collisions at Sea.

**TABLE 60. Time of Collisions, i.e., Day or Night:—Statement showing the NUMBER of COLLISIONS which occurred on or near the COASTS of the UNITED KINGDOM during the Year ended 30th June 1899, or were reported during the same period as having occurred to BRITISH VESSELS Abroad, or to FOREIGN VESSELS on or near the COASTS of BRITISH POSSESSIONS Abroad, distinguishing Collisions by DAY from Collisions by NIGHT, and further distinguishing Collisions happening with both Vessels under Weigh from those happening with one Vessel under Weigh and the other at Anchor, and Collisions arising between Vessels at Anchor, &c.**

| Time and Result of Collision. | Collisions between Two Steam Vessels. |                                    | Collisions between Two Sailing Vessels. |                                    | Collisions between a Steam Vessel and a Sailing Vessel. |  |  | Collisions between Vessels at Anchor or Moorings. | Total. |
|-------------------------------|---------------------------------------|------------------------------------|---|------------------------------------|---|--|--|---|--------|
|                               | Both under Weigh.                     | One under Weigh and One at Anchor. | Both under Weigh.                       | One under Weigh and One at Anchor. | Both under Weigh.                                       | Steam Vessel under Weigh and Sailing Vessel at Anchor. | Sailing Vessel under Weigh and Steam Vessel at Anchor. |   |        |
| Day                           | Total loss ..                         | 5                                  | —                                       | 0                                  | —   | 10   | 2  | —   | 27     |

## Lives Lost by Shipping Casualties at Sea and in Rivers and Harbours.

**TABLE 83. Seamen and Passengers Lost by Shipping Casualties everywhere.—Grand Totals :—**Statement showing the Number of Lives Lost in Seagoing Vessels registered in the United Kingdom and in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Lives Lost in Yachts, and Fishing Vessels, so registered) by Casualties which occurred to such Vessels on or near the Coasts, or in Rivers and Harbours, of the United Kingdom during the Year ended 30th June 1899, or were reported during the same period as having occurred elsewhere, showing also the Nature of the Casualties and the Number and Tonnage of the Vessels in which the Lives were Lost, and distinguishing the Lives Lost in Sailing Vessels from those Lost in Steam Vessels, the Number of Crew Lost from the Number of Passengers Lost, and the Lives Lost in Vessels Totally Lost from those Lost in Vessels Partially Lost.—(See also Tables 37 and 75.)

(A vessel which met with more than one casualty attended with loss of life in the period is entered for each casualty.)

## Deaths at Sea and in Rivers and Harbours.

**TABLE 84. Deaths from all Causes everywhere.—Grand Totals :—**Statement showing the Total Number of Deaths everywhere in Seagoing Vessels registered in the United Kingdom and in British Possessions Abroad under the Merchant Shipping Acts (exclusive of Yachts, and Fishing Vessels, so registered), arising from :—

- (1.) Shipping Casualties which occurred on or near the Coasts, or in Rivers and Harbours of the United Kingdom, or were reported from Abroad, during the Year 1898–99 ;
  - (2.) Accidents other than Wreck or Casualty reported during 1898–99 ;
  - (3.) Disease, Murder, Suicide, &c., reported during 1898–99 ;
- distinguishing the Deaths in Sailing Vessels from those in Steam Vessels, and showing respectively the Number of Deaths of Seamen, Lascars, and Passengers.—(Totals of Tables 38, 76, and 77.)

| Cause of Death.  | Death in Sailing Vessels. |          |                  | Death in Steam Vessels. |            |                  | Total.              |            |                  |

TABLE 2.—STATEMENT OF CASUALTIES, &c. IN RIVERS AND HARBOURS ABROAD.

---

## APPENDIX B.

TABLE 1.—STATEMENT showing the RIVERS AND HARBOURS OF THE UNITED KINGDOM in which Shipping Casualties occurred during the Year ended 30th June 1899, and showing also the Nature of the Casualties, and whether resulting in Total or Partial Loss of Vessel, together with the Number of Vessels which met with Casualties, and the Number of Lives Lost by such Casualties, and further distinguishing British Vessels from Foreign Vessels, and Sailing Vessels from Steam Vessels.

(River casualties, when no limits are mentioned, include all casualties that happened above the mouths of the Rivers.)
